About EPIC

EPIC

EPIC is a secure website that allows you to easily create and manage custom online profiles. EPIC offers report options to aid in program facilitation, and options which offer an expanded user experience. EPIC's growing list of functions offer advantages even our paper instruments can't match.

Access with Options

EPIC is a web-based program you can access at any time—issue Access Codes, monitor report completion, and print reports from anywhere in the world. Once a Respondent completes an assessment, EPIC scores their personalized profile right away. Give your respondents access to view their profile online, or choose to print the reports to provide during training facilitation.

Efficient Administration

Using EPIC helps conserve valuable training time by reducing administrative tasks. Respondents complete assessments online before training sessions, so you can use every minute of classroom time to its full advantage. Plus, EPIC takes care of scoring participant profiles behind the scenes, saving time and increasing accuracy.

Customizable Features

You can personalize reports with your company name, training program, and logo. Your company information also appears on the online assessment site and in emailed information from EPIC, providing Respondents with a consistent association with your brand. ([See More...](#))

You can tailor  Everything DiSC® and  The Five Behaviors of a Cohesive Team® profiles to incorporate them section-by-section into your facilitation time line. Profile sections and pages can be rearranged and/or removed at any time for both the online profile and printed versions. ([See More...](#))

Exclusive Extras

Make training stick with exclusive supplemental reports and MyEverythingDiSC.com! Supplemental reports allow you to build group reports from participant profiles in your EPIC account, and easily move people in and out of them as work groups change. MyEverythingDiSC.com is a bonus feature of Everything DiSC profiles

that provides a platform for insights and interactions based on a Respondent's DiSC style. ([Go to MyEverythingDiSC.com Help](#))

Getting Started Guide

Use the links below for help on setting up your new EPIC account and creating new reports.

Terms and Definitions

Before you get started, check out the meanings of some commonly used terms, such as "credit" and "access code". (Go to [Terms and Definitions](#))

Set Up Your Account & Add Your Brand

Choose **Personal Options** ▶ **View/Edit Account Information** from the EPIC menu.

Enter your contact information, company information and logo to add your brand to EPIC assessments and profiles. You can also use this function to set your default account settings in EPIC; these settings can be used to save you time and activate administrative features for your account.

(Go to the [View/Edit Account Information](#) help topic)

Create New Reports & Email Online Assessments to Your Participants

Choose **Manage Reports** ▶ **Create a New Report/Issue Access Codes** from the EPIC menu.

Select one of your available products, and then add the names and email addresses of your participants (EPIC Respondents). EPIC creates a unique Access Code for each Respondent's report. The Respondents receive an email containing a link to an online assessment, and their responses are used to create their completed report.

(Go to the [Create a New Report/Issue Access Codes](#) help topic)

Resend the Assessment Email to Your Participants

Choose **Manage Reports** ▶ **Resend Login Information** from the EPIC menu.

Search for the pending assessments using the Search function, select the report Access Codes you wish to have resent (via email) to your participants, and optionally, create a custom email message to include.

(Go to the [Resend Login Information](#) help topic)

Edit Existing Reports

Choose **Manage Reports** ▶ **Edit Existing Reports** from the EPIC menu.

Add or remove members from an existing team or group report, change Respondent information, or add or remove report options for pending and completed reports.

(Go to the [Edit Existing Reports](#) help topic)

(Go to the [Edit Existing Five Behaviors Team](#) help topic)

Print a Set of Completed Reports to Take to Training

Choose **Manage Reports** ▶ **Batch Functions** ▶ **Generate Reports for Download** from the EPIC menu.

Search for the group of reports you wish to print, and EPIC generates the reports all at one time. (EPIC "generates" a report by pulling in the most recent set of online assessment responses for the participant.) EPIC will create a folder containing the whole set of generated reports for you. You can quickly save these PDF formatted files to your computer to print all at one time.

(Go to the [Batch Generate Reports for Download](#) help topic)

Terms and Definitions

Access Code: a unique 10 character alpha-numeric code randomly generated by EPIC for each new profile/report created. The Access Code is provided (typically via email) to the Respondent, and ties a Respondent's online assessment responses to a profile/report. Access Codes provide a means for EPIC administrators to determine if and when an online assessment is complete.

Annotated Team Report:  The Five Behaviors of a Cohesive Team and Five Behaviors Progress Report both include an individual report for each team member, and an Annotated Team Report for facilitation. EPIC automatically creates the Annotated Team Report when you create Access Codes for the individual team members; the Annotated Team Report is the Parent Access Code under which the individual team member Access Codes are created. The Annotated Team Report will appear in EPIC search results along side the individual team member reports.

Completed: Reports/Profiles and Access Codes have a status of completed in EPIC when minimum requirements are met for report generation. Individual profiles have a completed status when the Respondent has completed an online assessment. Multiple-respondent reports (such as Everything DiSC 363 for Leaders) have a completed status when the Leader and a minimum number of required Raters has been met. Team reports have a completed status when a minimum number of required team members have completed their online assessments.

Credit: the currency used in EPIC; needed to create new Sub Accounts, new reports, issue Access Codes, and add supplemental reports. (*Go to EPIC Help topic: [Credits](#)*)

EPIC Administrator: an EPIC account holder with either a Primary or Sub Account.

Multiple-respondent report: Products in EPIC (such as EverythingDiSC 363 for Leaders) which allow for a Leader and Raters/Observers to complete an assessment regarding the Leader are considered multiple-respondent reports. Report generation requirements depend upon Rater/Observer type and the number of any type which have completed the online assessment.

MyEverythingDiSC.com: An interactive site that allows participants to invite colleagues to create Everything DiSC Comparison Reports, to learn more about their personal DiSC style, and to create Customer Interaction Maps (for Everything DiSC Sales Profiles). [Formerly referred to as the "Participant Portal"]

Online Assessment: a series of product-based questions asked of a Respondent via the EPIC Respondent Site, the responses being the data used to create profiles/reports for EPIC products.

Parent Access Code: a unique 10 character alpha-numeric code randomly generated by EPIC for each new team or group profile/report created. Parent Access Codes act as a bond between individual Access Codes, providing a means for EPIC administrators to both create and edit reports, and to determine if and when individual team members have completed their online assessments, including when the minimum number of team members has been met to allow for report generation.

Participant (or Respondent): one who has been given an Access Code allowing access to the EPIC Respondent Site, in order that they may complete an online assessment for a profile.

Pending: Reports/Profiles and Access Codes have a status of pending when (1) an individual online assessment has not yet been completed, or (2) when a multiple-respondent or team report cannot yet be generated because minimum report generation requirements have not been met.

Primary Account: top level EPIC account created by Partner Care for an Authorized Partner.

Profile (or Report): EPIC products are referred to as profiles or reports.

Respondent (or Participant): one who has been given an Access Code allowing access to the EPIC Respondent Site, in order that they may complete an online assessment for a product profile/report.

Respondent Site: the online assessment system used to gather Participant responses in order to create profiles/reports.

Report (or Profile): EPIC products are referred to as profiles or reports.

Sub Account: a client account created in EPIC by an Authorized Partner or by Partner Care.

Manage Reports

Create a New Report Issue Access Codes

Use the **Create a New Report/Issue Access Codes** function to create new reports and send emails containing access codes for online assessments. Choose a link below for help specific to the product.

To add people to an existing Five Behaviors team or Progress Report, instead use the [Edit Existing Five Behaviors Team](#) function.

[The Five Behaviors of a Cohesive Team Comparison Report](#)

[The Five Behaviors Progress Report](#)

[Five Behaviors: Types Version Beta](#)

Creation of Five Behaviors Annotated Team Reports

When you create a Five Behaviors team, EPIC creates an Access Code for each individual team member. EPIC also automatically creates an Annotated Team Report for use by the facilitator. This Annotated Team Report has its own Access Code, and is displayed in the same [search results](#) with the individual team member reports. This Annotated Team Report includes the same team information displayed in the reports of the individuals, but also includes valuable facilitation information in the margins of the report.

Create a Five Behaviors of a Cohesive Team or Five Behaviors Types Version Report

Use this process to create a new Five Behaviors of a Cohesive Team report or a Five Behaviors Types Version report by entering individual names and email addresses, by importing a spreadsheet containing the names and email addresses, or by selecting someone with an existing, completed report in your EPIC account.

1. To begin, choose **Manage Reports** ▶ **Create a New Report/Issue Access Codes**
2. **Product Family**, **Product** and **Language** selections are required before you can continue. Make your selections and press **Next**.

Select a Product Family, Product, and Language, then click the **Next** button to continue.

Product Family:	<input type="text" value="- None Selected -"/>	▼
Product:	<input type="text" value="- None Selected -"/>	▼
Language:	<input type="text" value="- None Selected -"/>	▼

Tip: Set your default language at: [View/Edit Account Information](#)

EPIC displays a message to let you know that this is not the correct way to add someone to an existing team and offers you a link to begin adding a team member:

 **Caution:** You are about to create an entirely new team report. If you are trying to add new team members to an existing team, [click here](#) to find that team's report and then click **Edit**.

3. In the **Report Options** section, you can uncheck boxes if you would like EPIC to exclude sections of the report in the generated version. You can easily include and exclude report sections each time you generate the report, so there is no wrong choice.

The report sections example shown here is for The Five Behaviors of a Cohesive Team. Report sections vary by product.

Report Options

Check a box to display an option in the report.

[Check All](#) | [Uncheck All](#)

- ☒ Introduction
- ☒ Building Trust
- ☒ Mastering Conflict
- ☒ Achieving Commitment
- ☒ Embracing Accountability
- ☒ Focusing on Results
- ☒ Strengths and Challenges

4. Press the **Next** button.
5. **Choose a folder** and/or subfolder in which to create new Access Codes or select the **New Folder** link to create a new folder.

Folder:	<input type="text" value="- None Selected -"/>	New Folder
Sub Folder:	<input type="text" value="- None Selected -"/>	New Sub Folder

 **Saver** Folders are the recommended way to [search](#) for reports. Create your new reports in folders/subfolders to quickly locate them later.

6. Team Name

 A team name is required for Five Behaviors reports, and appears on the cover of each report. Use a unique name for each team to easily differentiate between teams when searching for similar reports.

Team Name:	<input type="text" value="Best Workgroup Ever"/>
------------	--

7. Select **Delivery and Auto Reminder Options**
8. Use one of the three available methods to add Respondents who will receive an Access Code Email to complete their online assessment.

1. Enter Individual Respondents

Enter an email address and a name for a Respondent, then press the **Add...** button (depending on product, button will read Add Respondent, Add Rater, or Add Team Member).

Quantity: When quantity is available, you can enter a number to send more than one (1) Access Code to the email address entered.

2. Import Respondents

Select the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

See [Download Import Templates](#) for complete instructions.

3. Use Existing Report

 When available, select the **Use Existing Report** tab, then use the **Search** button to search for and select Respondents with completed profiles.

- When using one completed Everything DiSC Respondent to create a new Everything DiSC or Five Behaviors report, Respondents will not be required to take the DiSC portion of the assessment again. Their previous DiSC style scores will be used in the new report, and only the report-specific questions will be asked of them.

- When using a completed DiSC Classic report to create an Everything DiSC report, the Respondent name and email address are carried forward, and the Respondent will be able to take the complete Everything DiSC assessment.

EPIC displays a message when one or more of your Respondents qualifies for the Leap Forward credit discount, and the credit deduction is automatically applied:

			Total Credits: 45	

Press the "X" at the beginning of a row to delete the Respondent from the list. Press the **Edit** link for a row to edit the email address, then press **Save** to save your changes.

EPIC displays the **Total Quantity** of access codes about to be created, and the **Total Credits** that will be charged during this transaction in EPIC.

10. Press the **Next** button to continue.
11. **Confirm the credit deduction** by pressing the **OK** button, or press **Cancel** to return to the page you were just on.

12. Create a [custom email subject line and/or message](#) for this set of Access Code emails by pressing **OK**, or press cancel to have EPIC send the default email message. Once you are done creating your custom message, or after you have pressed the **Cancel** button, EPIC displays a confirmation page.

The **confirmation page** displays a summary of the product you just created, the Respondents who will receive an Access Code email, and EPIC credit activity associated with this transaction.

4. Since you are creating a report on the progress of an existing team, you must now search for and select that existing team. You are able to choose Five Behaviors teams and previously completed Progress Reports in this step. In order for either of these reports to be available for you to choose, they must be a completed state; there must be at least three (3) team members with completed assessments and those three (3) team members must be included in the report. [Edit the original team](#) if you need to change the include/exclude option for any of the team members before creating a Progress Report using the team.
5. **Choose a folder** and/or subfolder in which to create new Access Codes or select the **New Folder** link to create a new folder.

 **Saver** Folders are the recommended way to [search](#) for reports. Create your new reports in folders/subfolders to quickly locate them later.

See Also: [Folder Maintenance](#)

6. Team Name

 A team name is required for Five Behaviors reports, and appears on the cover of each report. Use a unique name for each team to easily differentiate between teams when searching for similar reports.

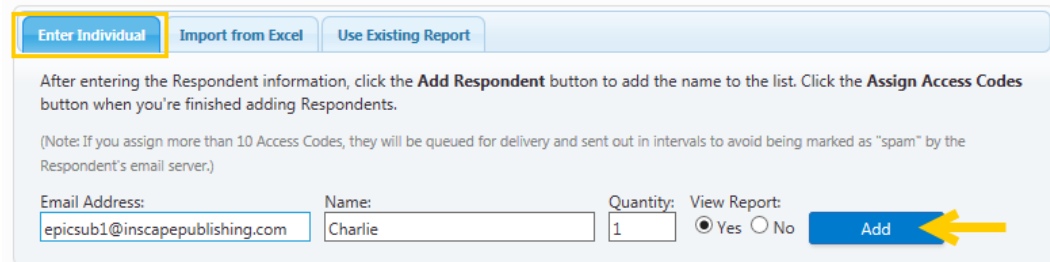

Team Name:	<div>Best Workgroup Ever</div>
------------	--------------------------------

Each time you create a new Progress Report for a team, you could include a month and year at the end to differentiate between similarly named team reports in EPIC. This will allow you to more easily search for and select the team later when you print the completed reports.

7. Choose **Delivery and Auto Reminder Options**
8. Use one of the three available methods to add new team members who will receive an Access Code Email to complete their online assessment. These added team members will be asked the Five Behaviors team-related assessment questions, but will be asked to clarify whether or not they participated in the last team assessment, and then will be opted out of any questions related to the team's progress.

1. Enter Individual Respondents

Enter an email address and a name for a Respondent, then press the **Add...** button (depending on product, button will read Add Respondent, Add Rater, or Add Team Member).

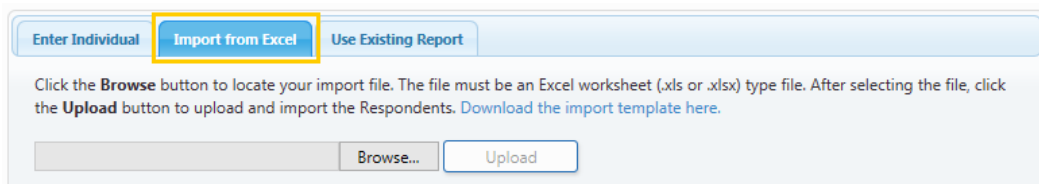

Quantity: When quantity is available, you can enter a number to send more than one (1) Access Code to the email address entered.

2. Import Respondents Saver

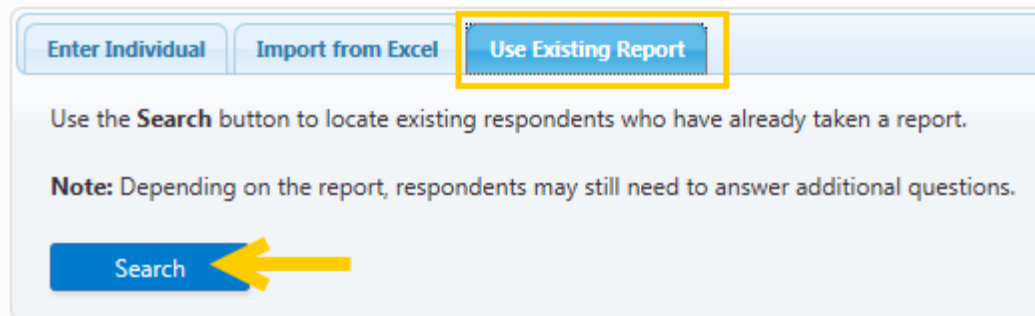

Select the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

See [Download Import Templates](#) for complete instructions.

3. Use Existing Report

 **Saver** When available, select the **Use Existing Report** tab, then use the **Search** button to search for and select Respondents with completed profiles.

Enter Individual Import from Excel **Use Existing Report**

Use the **Search** button to locate existing respondents who have already taken a report.

Note: Depending on the report, respondents may still need to answer additional questions.

Create an Everything DiSC Workplace, Sales, Management, or Work of Leaders Report

Use this process to create a new Everything DiSC Workplace, Sales, Management or Work of Leaders report by entering individual names and email addresses, by importing a spreadsheet containing the names and email addresses, or by selecting someone with an existing, completed report in your EPIC account.

1. To begin, choose **Manage Reports** ► **Create a New Report/Issue Access Codes**
2. **Product Family**, **Product** and **Language** selections are required before you can continue. Make your selections and press **Next**.

Select a Product Family, Product, and Language, then click the **Next** button to continue.

Product:	<input type="text" value="- None Selected -"/>	▼
Language:	<input type="text" value="- None Selected -"/>	▼

Tip: Set your default language at: [View/Edit Account Information](#)

3. Choose a **Creation Method**:
 - Choose **Assign Access Code(s) for an Online Product/Report** to send an email to Respondents which includes a link to their online assessment.
 - Choose **Enter Tally Box scores to produce a report** (available for DiSC Classic Products) and enter scores from completed 28-box DiSC family profiles to create an electronic report.
 - **Create an Access Code Extract File:** EPIC creates an Access Code spreadsheet in your EPIC account. ([See More...](#))
4. **Select Options** for your report(s). Report Options vary by product, and only options which are applicable to the product with which you are working are displayed.
 - **Report Options Section:** Choose how the completed profile looks when viewed online or printed from EPIC.
 - Report Sections: displays a list of possible report sections for the chosen product. The example below shows the report sections for ED Workplace:

6. Choose **Delivery and Auto Reminder Options**
7. Use one of the three available methods to add Respondents who will receive an Access Code Email to complete their online assessment.

1. Enter Individual Respondents

Enter an email address and a name for a Respondent, then press the **Add...** button (depending on product, button will read Add Respondent, Add Rater, or Add Team Member).

Quantity: When quantity is available, you can enter a number to send more than one (1) Access Code to the email address entered.

2. Import Respondents

Select the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

See [Download Import Templates](#) for complete instructions.

3. Use Existing Report

 When available, select the **Use Existing Report** tab, then use the **Search** button to search for and select Respondents with completed profiles.

- When using one completed Everything DiSC Respondent to create a new Everything DiSC or Five Behaviors report, Respondents will not be required to take the DiSC portion of the assessment again. Their previous DiSC style scores will be used in the new report, and only the report-specific questions will be asked of them.

- When using a completed DiSC Classic report to create an Everything DiSC report, the Respondent name and email address are carried forward, and the Respondent will be able to take the complete Everything DiSC assessment.

EPIC displays a message when one or more of your Respondents qualifies for the Leap Forward credit discount, and the credit deduction is automatically applied:

8. **Add Raters** by either entering information for individual Raters, or by using the **Import from Excel** tab to import a spreadsheet of raters.

What are the Rules for Adding Raters?

The Everything DiSC 363 for Leaders profile divides raters into 4 categories: **Manager**, **Peer/Coworker**, **Direct Report**, and **Other**. If you use one of these categories when assigning access codes, a minimum number of Raters in the category need to respond before the report can be generated. You do not need to have the minimum number in each category to assign the access codes since Raters can be added at a later date using the Edit function. The current minimums are:

- Manager: 1
- Peer: 2
- Direct Report: 2
- Other: 2

(Note: You do not need to use all of the rater categories)

When you retrieve a report for printing (View/Print/Email), EPIC checks the minimum rater requirements. If the minimum number of Raters have not completed responding, the Report Status icon will be displayed. Click on the Report Status link to determine why the report cannot be generated.

[Report

In cases where you want to generate the report and the minimum has not been reached (or may never be reached) you can use the Edit function to change the rater category for a rater or use the Include function to temporarily remove the rater's response from the report.

Import Raters **Saver**

Press the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

Create DiSC Classic Reports

Choose a product below to see instructions for creating a specific DiSC Classic product.

Individual Reports

Individual reports are those which are unique to the person completing the assessment. A unique access code is created for each report created, and one person's online assessment responses or Tally Box Scores are used to create the report content.

[DiSC Classic 1.0 \(including Quick Views\)](#)

[DiSC Classic 2.0](#)

[DiSC Classic 2 Plus](#)

Group, Facilitator and Team Reports

EPIC creates a unique access code for each new group report you create. Group reports are created by adding people with a completed individual report (from those listed above) to a group. These reports can be used to compare different combinations of individuals, and as a group overview.

Create DiSC Classic 1.0 and DiSC Classic 2.0 Reports

You can create new reports by entering individual names and email addresses, by importing a spreadsheet containing the names and email addresses, or by selecting someone with an existing, completed report in your EPIC account. This set of steps results in an Access Code email to the Respondents containing a link to an online assessment.

To see instruction for creating DiSC Classic reports by entering Tally Box Scores, click [here](#).

☒ [What's the difference between Word version and Phrase version?](#)

In the **Response Style** section, you can choose to present the Respondents with either a Word Version or Phrase Version of the online assessment.

What's the difference between Word version and Phrase version?

There are two response style options for DiSC Classic 1, DiSC Classic 2.0, DiSC Classic 2 Plus and DiSC PPSS.

Word Version - The respondent is presented with four words from which he/she chooses one that is "Most Like Me" and one that is "Least Like Me"

Phrase Version - The respondent is presented with four phrases from which he/she chooses one that is "Most Like Me" and one that is "Least Like Me"

The phrase response option allows you to bring DiSC to a broader range of learners. Written at a sixth-grade reading level, the phrase responses provide an alternative to the traditional word response format.

When assigning access codes for *DiSC Classic 1.0*, *DiSC Classic 2.0*, *DiSC Classic 2 Plus* or *DiSC PPSS*, you'll have an option to "Select a Response Style for the report" on the Select Report Features screen. If you'd like the respondent to have the word version, leave the response style on the default "Word Version." If you want the respondent to have the phrase version, simply select "Phrase Version."

Both the word or phrase response version will produce the same *DiSC Classic 1.0*, *DiSC Classic 2.0*, *DiSC Classic 2 Plus* or *DiSC PPSS* report and both response style reports can be used when generating group or comparison reports.

5. **Choose a folder** and/or subfolder in which to create new Access Codes or select the **New Folder** link to create a new folder.

Create DiSC Classic 2 Plus Reports

You can create new reports by entering individual names and email addresses, by importing a spreadsheet containing the names and email addresses, or by selecting someone with an existing, completed report in your EPIC account. This set of steps results in an Access Code email to the Respondents containing a link to an online assessment.

To see instruction for creating DiSC Classic reports by entering Tally Box Scores, click [here](#).

Create New Reports and Send Online Assessment Emails to Respondents

1. To begin, choose **Manage Reports** ► **Create a New Report/Issue Access Codes**
2. **Product Family**, **Product** and **Language** selections are required before you can continue. Make your selections and press **Next**.

Select a Product Family, Product, and Language, then click the **Next** button to continue.

Product Family:	<input type="text" value="- None Selected -"/>	▼
Product:	<input type="text" value="- None Selected -"/>	▼
Language:	<input type="text" value="- None Selected -"/>	▼

Tip: Set your default language at: [View/Edit Account Information](#)

3. Choose a **Creation Method**:
 - Choose **Assign Access Code(s) for an Online Product/Report** to send an email to Respondents which includes a link to their online assessment.
 - Choose **Enter Tally Box scores to produce a report** (available for DiSC Classic Products) and enter scores from completed 28-box DiSC family profiles to create an electronic report.
 - **Create an Access Code Extract File:** EPIC creates an Access Code spreadsheet in your EPIC account. ([See More...](#))
4. Select **Report Options**, **Response Style**, and **Supplemental Reports** for the reports you are creating.

In the **Report Options** section, check the boxes for the sections of the report you would like to be included in generated reports by default. You are able to override this default setting each time you generate the report, so there is no wrong choice.

In the **Response Style** section, you can choose to present the Respondents with either a Word Version or Phrase Version of the online assessment.

What's the difference between Word version and Phrase version?

There are two response style options for DiSC Classic 1, DiSC Classic 2.0, DiSC Classic 2 Plus and DiSC PPSS.

Word Version - The respondent is presented with four words from which he/she chooses one that is "Most Like Me" and one that is "Least Like Me"

Phrase Version - The respondent is presented with four phrases from which he/she chooses one that is "Most Like Me" and one that is "Least Like Me"

The phrase response option allows you to bring DiSC to a broader range of learners. Written at a sixth-grade reading level, the phrase responses provide an alternative to the traditional word response format.

When assigning access codes for *DiSC Classic 1.0*, *DiSC Classic 2.0*, *DiSC Classic 2 Plus* or *DiSC PPSS*, you'll have an option to "Select a Response Style for the report" on the Select Report Features screen. If you'd like the respondent to have the word version, leave the response style on the default "Word Version." If you want the respondent to have the phrase version, simply select "Phrase Version."

Both the word or phrase response version will produce the same *DiSC Classic 1.0*, *DiSC Classic 2.0*, *DiSC Classic 2 Plus* or *DiSC PPSS* report and both response style reports can be used when generating group or comparison reports.

The screenshot shows the 'Enter Individual' tab selected. Below the tabs, there is instructional text: 'After entering the Respondent information, click the **Add Respondent** button to add the name to the list. Click the **Assign Access Codes** button when you're finished adding Respondents. (Note: If you assign more than 10 Access Codes, they will be queued for delivery and sent out in intervals to avoid being marked as "spam" by the Respondent's email server.)' Below this is a form with fields for 'Email Address' (containing 'epicsub1@inscapepublishing.com'), 'Name' (containing 'Charlie'), and 'Quantity' (containing '1'). To the right of the 'Quantity' field is a 'View Report' section with radio buttons for 'Yes' (selected) and 'No'. A blue 'Add' button is on the far right, with a yellow arrow pointing to it.

Quantity: When quantity is available, you can enter a number to send more than one (1) Access Code to the email address entered.

Import Respondents Saver

Select the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

See [Download Import Templates](#) for complete instructions.

The screenshot shows the 'Import from Excel' tab selected. Below the tabs, there is instructional text: 'Click the **Browse** button to locate your import file. Use the **Search** button to locate existing respondents who have already taken a report.

Note: Depending on the report, respondents may still need to answer additional questions.

Search

- When using one completed Everything DiSC Respondent to create a new Everything DiSC or Five Behaviors report, Respondents will not be required to take the DiSC portion of the assessment again. Their previous DiSC style scores will be used in the new report, and only the report-specific questions will be asked of them.
- When using a completed DiSC Classic report to create an Everything DiSC report, the Respondent name and email address are carried forward, and the Respondent will be able to take the complete Everything DiSC assessment.

Use Existing Respondent's Data to Create a New Report

While creating new reports/Access Codes, you can select a Respondent with an existing, completed report and use their information to create a new report and send them a new online assessment. Go to the [Create A New Report Issue Access Codes](#) help page and choose a product to see help specific to your needs.

-  Check out the **2015 Leap Forward Program**: a cost-effective way to migrate your clients from DiSC Classic to Everything DiSC!
-  **Saver** When you select a Respondent with an existing, completed Everything DiSC report using the **Use Existing Report** tab, not only is the Respondent's name and email address carried forward, but the Respondent will only be required to answer the product-specific questions for the report and will not have to retake the DiSC Adaptive Testing ("AT") portion of the assessment again. The Respondent's original DiSC style is automatically carried forward to the new report.
-  **Saver** When you select a Respondent with an existing, completed DiSC Classic report using the **Use Existing Report** tab, you will not need to enter the Respondent's information into EPIC again, and the Respondent will be given a entirely new assessment.

Use an Existing Report to Create a New Report

Start with the [Create a New Report Issue Access Codes](#) function. During the step in this process where you select Respondents to add to this set of new Access Codes, select the **Use Existing Report** tab to search for and select Respondents with completed reports.

 Use an existing, completed Everything DiSC 363 for Leaders report to create a NEW EverythingDiSC 363 for Leaders report, and you'll be able to assign all new Raters for a Leader, but the Leader responses will be carried forward to the new report. the Leader will not be required to retake their online assessment.

Start with the [Create a New Report Issue Access Codes](#) function, and instead of entering the email address and name of the new Leader, use the link just below the email address to search for and select an existing, completed ED 363 Leader profile.

Edit the Annotated Team Report

For each Five Behaviors product you create, EPIC automatically creates a parent record, the Annotated Team Report (ATR), which both acts as the program facilitator's overview of the team's collective data, and ties all of the team member records together in EPIC. You can search for and select the Annotated Team Report to make changes to the parent record, and also use this parent record as a quick and easy link to the individual team member reports.

To make changes to the entire team, edit this parent record using the following process.

Locate the Annotated Team Report You Wish to Edit

From menu **Manage Reports** ► **Edit Existing Reports**, locate the Annotated Team Report Access Code, identified by the **Report summary** link in the Participants field as shown below. Press the **Edit** link to edit the team report.

The screenshot shows a table of report entries. The first entry is highlighted with a yellow box around the 'Edit' link in the first column. A yellow arrow points from the 'Report summary...' link in the 'Participants' column to the 'Edit' link. The table has columns for 'Participants', 'Access Code', 'Language', 'Team Name', 'Account', 'Created', 'Folder', and 'Sub Folder'.

Edit	Participants: Report summary...	Access Code: DZ6P48AAM2	Language: English	Team Name: Management Team	Account: Your Company Name	Created: 7/3/2014	Folder: 5 Behaviors	Sub Folder:

Change Folder or Team Name

Choose or create a folder or subfolder and/or enter a new name for the existing Five Behaviors Team. Press the **Next** button to save your changes.

Add Team Members

Add Team Members using one of the three methods:

Enter Individual Respondents

Enter an email address and a name for a Respondent, then press the **Add...** button (depending on product, button will read Add Respondent, Add Rater, or Add Team Member).

Enter Individual Import from Excel Use Existing Report

After entering the Respondent information, click the **Add Respondent** button to add the name to the list. Click the **Assign Access Codes** button when you're finished adding Respondents.

(Note: If you assign more than 10 Access Codes, they will be queued for delivery and sent out in intervals to avoid being marked as "spam" by the Respondent's email server.)

Email Address: Name: Quantity: View Report: ☒ Yes ☐ No **Add**

Quantity: When quantity is available, you can enter a number to send more than one (1) Access Code to the email address entered.

Import Respondents Saver

Select the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

See [Download Import Templates](#) for complete instructions.

Enter Individual **Import from Excel** Use Existing Report

Click the **Browse** button to locate your import file. The file must be an Excel worksheet (.xls or .xlsx) type file. After selecting the file, click the **Upload** button to upload and import the Respondents. [Download the import template here.](#)

Use Existing Report

 Saver When available, select the **Use Existing Report** tab, then use the **Search** button to search for and select Respondents with completed profiles.

Enter Individual **Import from Excel** **Use Existing Report**

Use the **Search** button to locate existing respondents who have already taken a report.

Note: Depending on the report, respondents may still need to answer additional questions.

Search

- When using one completed Everything DiSC Respondent to create a new Everything DiSC or Five Behaviors report, Respondents will not be required to take the DiSC portion of the assessment again. Their previous DiSC style scores will be used in the new report, and only the report-specific questions will be asked of them.

- When using a completed DiSC Classic report to create an Everything DiSC report, the Respondent name and email address are carried forward, and the Respondent will be able to take the complete Everything DiSC assessment.

EPIC displays a message when one or more of your Respondents qualifies for the Leap Forward credit discount, and the credit deduction is automatically applied:

Respondent List

As you add Respondents using each of the possible ways, EPIC builds a Respondent List.

The list below displays the Respondents that will receive an Access Code. To remove a name from the list, click ✕.

Email Address		Name	Quantity	View Report
✕ bob@wiley.com	Edit	Bob	1	Yes
✕ chris@wiley.com	Edit	Chris	1	Yes
✕ leah@wiley.com	Edit	Leah	1	Yes
			Total Quantity: 3	
			Total Credits: 45	

Press the "✕" at the beginning of a row to delete the Respondent from the list. Press the **Edit** link for a row to edit the email address, then press **Save** to save your changes.

EPIC displays the **Total Quantity** of access codes about to be created, and the **Total Credits** that will be charged during this transaction in EPIC.

Once you have populated the Respondent List with all of the team members you wish to add, press the **Next** button. You will be given the option to include a custom email message or subject line, and will then be taken to the confirmation page summarizing your credit transaction. The confirmation page will give you a status of the emails sent to the Respondents (team members) you added.

Edit Individual Team Member Reports

You can search for and select individual team members in one of two (2) ways. Either search for and select the Annotated Team Report using the steps at the top of this page and then edit one of the individual team members listed, or use the [Edit Existing Reports](#) function to locate just the report belonging to the individual team member.

Locate and Edit a Team Member from the Annotated Team Report

With the Annotated Team Report displayed, the **Add Team Members** section lists the Respondents and includes the status of their report, whether their report can be viewed online and whether they are included when generating reports.

Click on the **Edit** link for a Respondent, then press the **OK** button to be taken to the page for editing individual Respondent Access Code information and report options.

Email	Name	View Report	Include	Status	
epicsub3@inscapepublishing.com	Amy 1	Yes	Yes	Complete	Edit

With the individual team member's information displayed, you can make changes to their name, email address, and gender. You can also choose to include or exclude this member from the generated reports, and change whether the Respondent is able to view their report online.

You can also use the **Change Report Options/Content** button to change which sections of the report the team member is able to see online.

Once you are finished editing the individual team member, you can use the **Edit Five Behaviors** button to return to editing the Annotated Team Report.

Locate and Edit a Team Member from their Individual Report

Use the [Edit Existing Reports](#) function to search for and select the individual's Five Behaviors report. Press the **Edit** link, make the necessary changes to their report, then press **Save Changes**.

Exclude a Team Member's Data from All Generated Reports

Using either of the methods above to locate and edit an individual team member's report, change the **Include this Team Member in the report?** field.

- With the individual team member's information displayed, change **Include** to **No**. Excluded individuals with pending Access Codes will still be able to complete their assessments, but their data will not be used in the team's reports unless Include is changed back to **Yes**.
- When **Include** is set to **No**, EPIC will not use the individual's assessment data to create any reports, so the **View Online** options should be set to **No** at the same time. EPIC displays a message to ensure these two settings match up.

Remove Team Members from the Annotated Team Report

- **Pending Access Codes:** To permanently remove an individual from a Five Behaviors team before the individual has completed their assessment, use the [Unassign Access Codes/Reclaim Credits](#) function to locate the individual's Five Behaviors report and unassign the Access Code.
- **Completed Access Codes:** To permanently remove an individual from a Five Behaviors team after their assessment has been completed, use the [Delete Reports](#) function to locate the individual's Five Behaviors report and delete their record from EPIC.

Edit Pending Reports

Select a field below to see notes specific to editing the field for pending reports.

- [Email Address](#)

There is no limit to the number of changes to email address for pending Access Codes.

Changing the email address will result in a new email to Respondent.

- [Leader Name](#)

ED 363 Leader names cannot be edited once Access Codes have been created. Unassign pending Access Codes and re-create the report to correct the leader name. (This will be the leader name as seen by the raters, but will not be the name on the completed report.)

Note that the name entered by the Leader while taking the assessment will appear on the completed report cover, and not the name entered by the EPIC administrator during Access Code creation.

- [Rater Info](#)

 ED 363 Rater type, name, email address and their inclusion in the report can be changed at any time for pending Access Codes.

- **Gender**

For pending  ED 363 Access Codes, the gender entered determines how the assessment reads to the Raters ("He/She" etc.). Any edit made to the gender field for the Leader will be seen immediately by Respondents taking the assessment.

- **View Online**

Set **View Online** to **Yes** to allow Respondents to view their profile online once it is considered to be complete.

View Online must be set to **No** when **Include** is set to **No** for an individual record in a Five Behaviors team.

- **Name entered by Administrator**

There is no limit to the number of changes to the name entered by you, the Administrator, for pending Access Codes.

 ED 363 Access Codes do not allow changes to Leader name for pending or completed Access Codes.

- **Add or Remove Team Members**

Permanently remove a pending individual team member from a Five Behaviors team using the [Unassign Access Codes/Reclaim Credits](#) function or the [Delete Reports](#) function.

Edit Completed Reports

Select a field below to see notes specific to editing the field for completed reports.

- [Allow Respondents to view Report Online?](#)

Changing **View Online** to **Yes** will result in an email to the Respondent including a link to view the report online for completed Access Codes.

 When **Include** is set to **No**, EPIC will not use the individual's assessment data to create any reports, so **View Online** should be set to **No**.

- [Include this Team Member in the report?](#)

 Excluded Five Behaviors team members with pending Access Codes will still be able to complete their assessments, but their data will not be used in the generated reports until **Include** is changed back to **Yes** for the excluded team member.

When **Include** is set to **No**, EPIC will not use the individual's assessment data to create any reports, so **View Online** should be set to **No**.

- [Add Raters](#)

Add new Raters to a completed  ED 363 report using the same methods as those to create the initial Access Codes. No additional credits are charged for added Raters.

- [Add or Remove Group or Comparison Report Participants](#)
 - For group and comparison reports, at least one (1) member of the previous group must be retained and included in the new group.

- EPIC allows two (2) edits to the members/participants of a group report. An edit consists of removal or addition of participants and pressing the **Next** button, regardless of whether you generate/view the report between changes.
- An **Edits remaining for this report** field is displayed for these records.
- **Add Team Members**
 -  Add additional members to an existing Five Behaviors team by editing the existing team and entering additional Respondent information. Credits are charged similarly to initial report creation.
 - Permanently remove an individual from a Five Behaviors team using the Delete Reports function.

Edit an Everything DiSC 363 for Leaders Report

The ability to edit report properties depends on whether the report is considered to be completed or pending, and on how much time has passed since the Access Code was issued.

ED 363 for Leaders reports are considered to be completed when the Leader and one Rater have completed the online assessment. Completed ED 363 for Leaders reports can be edited for 150 days after they achieve a status of completed. During the 150 day limit, the Leader email address and gender can be changed, and Raters can be added or removed from the report.

Use the following steps to begin editing an Everything DiSC 363 for Leaders report.

1. Choose **Manage Reports** ▶ **Edit Existing Reports**

 What are the rules for adding Raters?

Email: Name: Rater Type:

What are the Rules for Adding Raters?

The Everything DiSC 363 for Leaders profile divides raters into 4 categories: **Manager**, **Peer/Coworker**, **Direct Report**, and **Other**. If you use one of these categories when assigning access codes, a minimum number of Raters in the category need to respond before the report can be generated. You do not need to have the minimum number in each category to assign the access codes since Raters can be added at a later date using the Edit function. The current minimums are:

- Manager: 1
- Peer: 2
- Direct Report: 2
- Other: 2

(Note: You do not need to use all of the rater categories)

When you retrieve a report for printing (View/Print/Email), EPIC checks the minimum rater requirements. If the minimum number of Raters have not completed responding, the Report Status icon will be displayed. Click on the Report Status link to determine why the report cannot be generated.

[Report](#)
[Status](#)

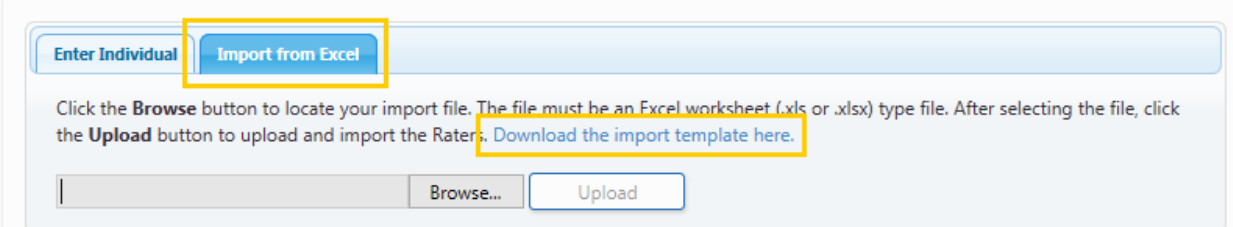

In cases where you want to generate the report and the minimum has not been reached (or may never be reached) you can use the Edit function to change the rater category for a rater or use the Include function to temporarily remove the rater's response from the report.

Edit Existing Five Behaviors Team

Include or Exclude Team Members

Change an Individual's Name or Email Address

Permanently Remove Team Members from EPIC

Edit the Annotated Team Report

For each Five Behaviors product you create, EPIC automatically creates a parent record, the Annotated Team Report (ATR), which both acts as the program facilitator's overview of the team's collective data, and ties all of the team member records together in EPIC. You can search for and select the Annotated Team Report to make changes to the parent record, and also use this parent record as a quick and easy link to the individual team member reports.

To make changes to the entire team, edit this parent record using the following process.

Locate the Annotated Team Report You Wish to Edit

From menu **Manage Reports** ▶ **Edit Existing Reports**, locate the Annotated Team Report Access Code, identified by the **Report summary** link in the Participants field as shown below. Press the **Edit** link to edit the team report.

Change Folder or Team Name

Choose or create a folder or subfolder and/or enter a new name for the existing Five Behaviors Team. Press the **Next** button to save your changes.

Add Team Members

Add Team Members using one of the three methods:

Enter Individual Respondents

Enter an email address and a name for a Respondent, then press the **Add...** button (depending on product, button will read Add Respondent, Add Rater, or Add Team Member).

Enter Individual Import from Excel Use Existing Report

After entering the Respondent information, click the **Add Respondent** button to add the name to the list. Click the **Assign Access Codes** button when you're finished adding Respondents.

(Note: If you assign more than 10 Access Codes, they will be queued for delivery and sent out in intervals to avoid being marked as "spam" by the Respondent's email server.)

Email Address: Name: Quantity: View Report: ☒ Yes ☐ No **Add**

Quantity: When quantity is available, you can enter a number to send more than one (1) Access Code to the email address entered.

Import Respondents Saver

Select the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

See [Download Import Templates](#) for complete instructions.

Enter Individual **Import from Excel** Use Existing Report

Click the **Browse** button to locate your import file. The file must be an Excel worksheet (.xls or .xlsx) type file. After selecting the file, click the **Upload** button to upload and import the Respondents. [Download the import template here.](#)

Use Existing Report

 Saver When available, select the **Use Existing Report** tab, then use the **Search** button to search for and select Respondents with completed profiles.

Enter Individual **Import from Excel** **Use Existing Report**

Use the **Search** button to locate existing respondents who have already taken a report.

Note: Depending on the report, respondents may still need to answer additional questions.

Search

- When using one completed Everything DiSC Respondent to create a new Everything DiSC or Five Behaviors report, Respondents will not be required to take the DiSC portion of the assessment again. Their previous DiSC style scores will be used in the new report, and only the report-specific questions will be asked of them.

- When using a completed DiSC Classic report to create an Everything DiSC report, the Respondent name and email address are carried forward, and the Respondent will be able to take the complete Everything DiSC assessment.

EPIC displays a message when one or more of your Respondents qualifies for the Leap Forward credit discount, and the credit deduction is automatically applied:

			Total Quantity: 4	
			Total Credits: 20	
¹ One or more respondent(s) qualifies for credit discount.				

Respondent List

As you add Respondents using each of the possible ways, EPIC builds a Respondent List.

The list below displays the Respondents that will receive an Access Code. To remove a name from the list, click ✕.

Email Address		Name	Quantity	View Report
✕ bob@wiley.com	Edit	Bob	1	Yes
✕ chris@wiley.com	Edit	Chris	1	Yes
✕ leah@wiley.com	Edit	Leah	1	Yes
			Total Quantity: 3	
			Total Credits: 45	

Press the "✕" at the beginning of a row to delete the Respondent from the list. Press the **Edit** link for a row to edit the email address, then press **Save** to save your changes.

EPIC displays the **Total Quantity** of access codes about to be created, and the **Total Credits** that will be charged during this transaction in EPIC.

Once you have populated the Respondent List with all of the team members you wish to add, press the **Next** button. You will be given the option to include a custom email message or subject line, and will then be taken to the confirmation page summarizing your credit transaction. The confirmation page will give you a status of the emails sent to the Respondents (team members) you added.

Edit Individual Team Member Reports

You can search for and select individual team members in one of two (2) ways. Either search for and select the Annotated Team Report using the steps at the top of this page and then edit one of the individual team members listed, or use the [Edit Existing Reports](#) function to locate just the report belonging to the individual team member.

Locate and Edit a Team Member from the Annotated Team Report

With the Annotated Team Report displayed, the **Add Team Members** section lists the Respondents and includes the status of their report, whether their report can be viewed online and whether they are included when generating reports.

Click on the **Edit** link for a Respondent, then press the **OK** button to be taken to the page for editing individual Respondent Access Code information and report options.

Email	Name	View Report	Include	Status	
epicsub3@inscapepublishing.com	Amy 1	Yes	Yes	Complete	Edit

With the individual team member's information displayed, you can make changes to their name, email address, and gender. You can also choose to include or exclude this member from the generated reports, and change whether the Respondent is able to view their report online.

You can also use the **Change Report Options/Content** button to change which sections of the report the team member is able to see online.

Once you are finished editing the individual team member, you can use the **Edit Five Behaviors** button to return to editing the Annotated Team Report.

Locate and Edit a Team Member from their Individual Report

Use the [Edit Existing Reports](#) function to search for and select the individual's Five Behaviors report. Press the **Edit** link, make the necessary changes to their report, then press **Save Changes**.

Exclude a Team Member's Data from All Generated Reports

Using either of the methods above to locate and edit an individual team member's report, change the **Include this Team Member in the report?** field.

- With the individual team member's information displayed, change **Include** to **No**. Excluded individuals with pending Access Codes will still be able to complete their assessments, but their data will not be used in the team's reports unless Include is changed back to **Yes**.
- When **Include** is set to **No**, EPIC will not use the individual's assessment data to create any reports, so the **View Online** options should be set to **No** at the same time. EPIC displays a message to ensure these two settings match up.

Remove Team Members from the Annotated Team Report

- **Pending Access Codes:** To permanently remove an individual from a Five Behaviors team before the individual has completed their assessment, use the [Unassign Access Codes/Reclaim Credits](#) function to locate the individual's Five Behaviors report and unassign the Access Code.
- **Completed Access Codes:** To permanently remove an individual from a Five Behaviors team after their assessment has been completed, use the [Delete Reports](#) function to locate the individual's Five Behaviors report and delete their record from EPIC.

View/Print/Email Completed Reports

Use this function to create one (1) PDF document for viewing, printing or emailing. Each time a report is generated, EPIC grabs the most up-to-date information to pull into the report. Because EPIC does not store individually generated reports, completed reports can be generated for viewing an infinite number of times without credits being charged.

 **Saver** Use **Batch Functions** ▶ **Generate Reports for Download** to generate many reports at one time. These reports will generate in the background while you continue working in EPIC or logout of the system.

Multi-Respondent reports such as  Five Behaviors and  Everything DiSC 363 for Leaders products have completion requirements that must be met before a report can be generated. (See [Search Results section for Multi-Respondent Reports](#))

Generate Individual Reports

1. Choose **Manage Reports** ▶ **View/Print/Email Completed Reports**.

Use the [Search](#) function to locate a report.

Press the **Select** link next to the report you wish to generate.

Delete Reports

- Deleting a completed report removes the Respondent assessment responses from EPIC, thus the profile can no longer be generated/viewed.
- Deleting pending Access Codes causes the credits to be returned to your account. Note that pending Access Codes can also be unassigned. **See Also:** [Unassign Access Codes/Reclaim Credits](#)
-  ED 363 reports include an association between the Raters and the Leader Access Codes in EPIC. Deleting the Leader Access Codes for one of these products also deletes the associated Rater Access Codes. ED 363 reports in pending status will be credited back to your account upon deletion. A 363 for Leaders report is considered to be completed when the Leader and at least one (1) Rater have completed the online assessment. To be considered pending, these report conditions must met:
 - The Leader has not completed the assessment, regardless of whether any Raters have completed their assessments, or
 - The Leader has completed the assessment, but none of the Raters have completed their assessments.
-  Deleting an individual Five Behaviors access code removes the team member from the Five Behaviors or Progress Report team and deletes their pending or complete profiles.
-  The Annotated Team Report is created automatically when you assign Access Codes for a new Five Behaviors or Five Behaviors Progress Report team, and the Annotated Team Report is automatically deleted if/when you delete the Access Codes for all team members. You cannot use the Delete function to delete the Annotated Team Report.
-  Deleted reports are also removed from a Respondent's corresponding [MyEverythingDiSC.com](#) account.
-  If you delete an individual report for a Respondent, and that Respondent's report was used to create a group or comparison report, the individual is ALSO removed from that group or comparison report in EPIC. Check your edits remaining for these reports before you delete the last remaining member of the group and thus render the group or comparison report Access Code unusable.

Press **OK** to send a confirmation email to the Respondent, or click **Cancel** to skip this step.

Press **OK** to include a custom email message or subject line. Press **Cancel** to send the default message.

Download Access Code Extract File

Access Code Extract Files allow you to download Access Codes in an Excel spreadsheet for individual EPIC profiles instead of distributing the Access Codes via individual emails to Respondents. Wiley Partner Care must activate this feature in your EPIC account before it is displayed during Access Code creation for applicable products.

 It is critical that you, the administrator, maintain the data privacy requirements of the EPIC system and do not assign the same Access Code to more than one (1) individual. Failure to maintain data privacy requirements causes a serious breach of the [Data Protection Policy](#).

An import template is an Excel spreadsheet (.xls or .xlsx) you can use to quickly import multiple Respondents.

Download A Template

Go to **Manage Reports** ▶ **Download Import Templates**

- The Individual Respondent Template is used for all products except for ED 363 for Leaders.
- The Rater Template is for importing  ED 363 Raters.

Press the **Download** button and **Save** the template to your PC.

Enter Respondent Data

Enter your Respondent information in the correct columns on the spreadsheet to populate the template with data.

-  Do not change the column headings in row 1.
- Use the columns to the right of column C for your own notes (columns D, E, F, etc.).
-  Be careful to (1) enter valid email addresses and (2) leave the last row completely blank, as EPIC will not import incorrect or incomplete information.
- Note the difference between Column C for Individual Respondents and Column C for ED 363 for Leaders:
 - Individual Respondents require you to enter a "1" or "0" to allow online report viewing by Respondents.
 -  ED 363 for Leaders uses Column C to indicate what kind of Rater you would like to create.

Use Import Templates to Create Reports

Go to **Manage Reports** ▶ **Create New Report/Issue Access Codes**

Click the **Import from Excel** tab to display the File **Browse** and **Upload** buttons.

Enter Individual
Import from Excel
Use Existing Report

Click the **Browse** button to locate your import file. The file must be an Excel worksheet (.xls or .xlsx) type file. After selecting the file, click the **Upload** button to upload and import the Respondents. [Download the import template here.](#)

Browse...
Upload

Press the **Browse** button and select the template you have downloaded from EPIC and populated with names and email addresses.

Press the **Upload** button to complete the process. Your imported names and email addresses will be displayed in the list of Respondents who will receive an Access Code email.

Troubleshoot Failed Import Attempts

Errors result from improperly formatted import templates and an insufficient number of credits to cover all of the imported Respondents. When an error is detected, EPIC abandons the import process and displays an error message.

The following spreadsheet errors will prevent the data from uploading:

- Invalid email address domain (@incorrectEmailAddress.com).
- Improperly formatted data in the spreadsheet such as:

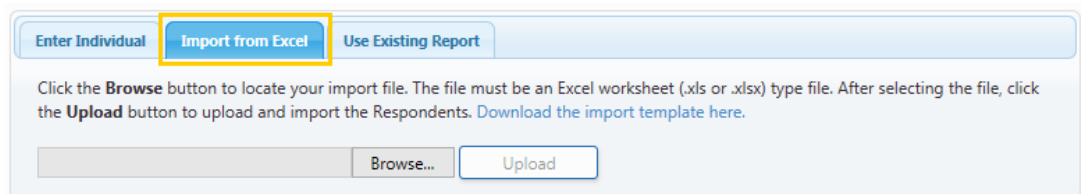

- Row 1 column headings altered for columns A, B & C (column headings must not be changed).
- Words in Column C rather than numbers.
- Last row not completely blank (a partial row of information).

If you receive an import template error message, revise your import template (Excel spreadsheet) and attempt to upload the correctly formatted data.

Use Import Templates to Create Reports

Go to **Manage Reports** ▶ [Create New Report/Issue Access Codes](#)

Click the **Import from Excel** tab to display the File **Browse** and **Upload** buttons.

The screenshot shows a web interface with three tabs: 'Enter Individual', 'Import from Excel' (which is highlighted with a yellow border), and 'Use Existing Report'. Below the tabs, there is instructional text: 'Click the **Browse** button to locate your import file. The file must be an Excel worksheet (.xls or .xlsx) type file. After selecting the file, click the **Upload** button to upload and import the Respondents. Download the import template [here](#).' At the bottom, there is a file selection area with a 'Browse...' button and an 'Upload' button.

Press the **Browse** button and select the template you have downloaded from EPIC and populated with names and email addresses.

Press the **Upload** button to complete the process. Your imported names and email addresses will be displayed in the list of Respondents who will receive an Access Code email.

Batch Functions

Batch Functions allow you to create, edit, or generate a large groups of records at one time.

Edit Report Options

Use this feature to make changes to a group of similar reports. Report Options available to edit will vary depending on which set of records you choose to edit. EPIC sends an email to the Respondent only when an email address has been entered and only when the change results in an available action by the Respondent, such as View Online or added Participant Portal options.

([See More...](#))

Edit Delivery Options for Access Code Groups

Change a future delivery date or auto reminder date for a group of access codes.

Batch Edit Report Options

Choose **Manage Reports** ▶ **Batch Functions** ▶ **Edit Report Options**

Select a Product Family, Product and Language.

Press the **Add Reports** button and use [Search](#) to locate and select the reports you wish to edit.

Select the options you wish to change. These depend on the product chosen and can include View Report Online, [Product Tailoring](#), and [MyEverythingDiSC.com](#) Options.

Press the **Update Report Options** button to apply your changes.

The View Results page displays all of the reports you selected to edit, and divides them out to show you which were affected by the changes, and also which changes resulted in an email to Respondents.

- Respondents receive an email when the edits you make benefit them in some way; such as giving them the option to view their completed report online, or adding MyEverythingDiSC.com options.

Batch Create/Generate Comparison Reports

Menu location: **Manage Reports** ▶ **Batch Functions** ▶ **Create/Generate Comparison Reports**.

EPIC lets you know that this process will both **CREATE** the comparison reports (create new access codes) and then batch generate them for viewing/printing/download once the reports are created. This process should not be used to batch generate reports you have already created, as this will result in duplicate reports in EPIC. To generate comparison reports you have already created, use **Batch Functions** ▶ **Generate Reports for Download**.

IMPORTANT NOTICE

This EPIC feature **creates and batch generates** Everything DiSC Comparison reports. Each time you run this feature, new comparison reports are created.

If a Comparison Report for two individuals already exists in your EPIC account, use the Batch function "**Generate Reports for Download**" instead of "**Create/Generate Comparison Reports**" to create the zip file and download to your computer.

Unassign Access Codes/Reclaim Credits

Pending Access Codes (the online assessment has not yet been completed) can be unassigned, resulting in the credits being returned back to your EPIC account. The **Unassign Access Codes/Reclaim Credits** function is also how to reclaim pending credits for Respondents who have declined the [Data Protection Consent Policy](#). EPIC has a couple of restrictions to protect the integrity multi-respondent and team reports:

 ED 363 for Leaders Access Codes have specific requirements for a pending status; as soon as the Leader and one Rater have completed their online assessments, the report is no longer pending and cannot be unassigned.

 You can unassign Access Codes for pending individual Five Behaviors team member profiles, but not completed team member profiles. Because the Annotated Team Report Access Code (the facilitator report) consists of data from all of the individual team members, it cannot exist without the individual team members. Unassigning all team members deletes the Access Code for the Annotated Team Report automatically.

How To Unassign Access Codes

Go to **Manage Your Account** ▶ **Unassign Access Codes/Reclaim Credits** .

Press the **Search** button to return a list of all individual pending Access Codes, or enter search criteria to narrow your results.

Moving Five Behaviors Reports

The Five Behaviors of a Cohesive Team reports consist of one parent record (the Annotated Team Report) and three or more individual team member reports, which move between folders with the parent record. Move the Annotated Team Report, and the individual team member reports will automatically be moved as well.

Move a Single Record into a Folder or Sub Folder

You can place any single report into a folder or change which folder/subfolder it is organized into using the [Edit Existing Reports](#) function.

Records Moved From a Parent Account

Once the process of moving records to a Sub Account is complete, the Sub Account will see the newly created folder in their EPIC account at **Manage Your Account ► Folder Maintenance**.

Once located in their own EPIC account, records moved to the Sub Account can be organized into the Sub Account's folder structure of choice using the **Transfer Contents** link. ([See More...](#))

Sub Accounts

Manage Individual Sub Accounts

Go to **Manage Your Account** ▶ **Sub Accounts** ▶ **Manage Individual Sub Accounts**, to view a listing of all of your Sub Accounts. Press the plus sign  to expand an individual row.

 **Saver** Activate the [Sub Account Search](#) setting in the [Advanced Options](#) section of [View/Edit Account Information](#) to use search criteria to find one or more Sub Accounts (the EPIC default is to display them all).

1. Select a Sub Account by pressing the Company Name (Administrator Name) link to the right of the folder icon . Doing so will open up the blue-shaded area which displays the possible functions you can perform for the selected account.
2. Available functions:
 - **Add/Remove Products:** Check the corresponding box to add a product/language to the Sub Account, and uncheck the box to remove a product, then press the **Next** button at the bottom of the page to save your changes.
 - **Transfer Credits:** (1) Enter and confirm the number of credits to transfer out of your EPIC account and into the selected Sub Account, (2) enter an optional transaction description, then (3) press the **Next** button to apply the transfer. An email is sent to the Sub Account with the credit transfer notification.
 -  This function does not facilitate a financial transaction; billing and/or payment is not managed by EPIC.
 -  Once credits have been transferred, only the Sub Account can transfer them back to you using the [Transfer Credits to Parent Account](#) function.
 - Information entered into the **Transaction Description** field is displayed on the [Account History Report](#) of both parties involved in the transaction; the information is not displayed on the transfer credit email note sent to the Sub Account.
 - Your Sub Accounts have the ability to transfer Credits to their Sub Accounts using this same function.

- **Credit Limit:** Enable a credit limit for the selected Sub Account by checking the **Enable Credit Limit** check box. Enter a credit limit and press the **Save** button to apply your changes. No email is sent the Sub Account when you enable or disable this function.

This function allows Sub Accounts to withdraw credits from your EPIC account for use in their own account.

Administrator Name: Required Field. Enter your name as you wish it to appear to your Respondents. Your full name is recommended, as this name is displayed in the default email subject line when assigning online access codes.

Email: Required Field. EPIC uses this email address to notify you when a process has completed. Add multiple email addresses to this field by separating them with a semi-colon (";").

Email "From" Name: Optional Field. This name precedes your email address in emails you send via EPIC. A preview of your email address and "From" name is provided in the Email

Display field.

Contact Information

- Enter up to seven (7) lines of text. Each line of text is limited to 50 characters. Line #1 is a required field.
- Your Contact Information is displayed in the following locations:
 - The profile report cover
 - The signature block for email messages sent by EPIC to Respondents and Sub Accounts
 - The initial "Splash" page and final "Thank You" page on the Respondents' online assessment website
 - The "Provided By" branding on MyEverythingDiSC.com accounts created by your Respondents

Important: The information entered into these seven lines of text is displayed exactly as you type it. Please insure that you enter the information correctly.

Company Logo

Your Company Logo will be displayed on the first page of a Respondent's online assessment and on the front cover of your profiles. Press the **Browse** button to locate and select your logo image file, then press the **Upload Logo** button to upload it to EPIC. Use the **Delete Logo** button to remove it at any time.

- To get the optimal results for your logo, use the following criteria:
 - File Type: JPG or GIF
 - Size: 750 X 750 pixels
 - Resolution: 300 DPI
- If your logo is smaller or larger than the recommend size, the system will automatically size the logo to fit the available space on the cover of the profile. If your logo is multi-colored, EPIC will upload a color version and create a black and white version for use when you select the B/W print option for printing the report

Assign Access Code Subject

- Create a Custom Subject for Access Code email to Respondents. Use [System Variables](#) to personalize the message.
- Note that you will be able to use the EPIC default subject line and override this custom email subject line during Access Code creation, or make on-the-fly edits later to the custom text you create here.
-  Only Access Code emails with the default message of, "[ADMIN NAME] has registered you for: [PRODUCT NAME]" will be replaced automatically when you use this setting. Access Code Emails for The Five Behaviors of a Cohesive Team, ED 363 for Leaders, and LPI: Next Generation can be changed by choosing to send a custom subject and email to respondents during Access Code creation. ([See More...](#))

Email Format

- Choose to send HTML format emails and have the option to use colorful and accented text, graphics, and links to web pages.
- When you choose to set your account to send HTML messages, the [HTML editor](#) will be available to you when you [create custom messages](#).

Email Notification

- Receive an email every time a Respondent completes an online assessment by setting your Email Notification to **Yes**. The email is sent to all of the email addresses you have in the Email field for your account.
- The completion notification for  ED 363 reports will occur only when the Leader and all assigned Raters have completed their online assessments.

Menu location: **Personal Options** ▶ [View/Edit Account Information](#)

Credit Reminder

- The Credit Reminder informs you that your EPIC Credit balance is running low. When the credit balance reaches the number entered into this field, EPIC sends an email reminder to the account administrator that the Credit balance has reached this threshold.

View Report online default

Set a default of either **Yes** or **No** to have the **View Report Online** option default to one or the other for Respondents during Access Code creation.

Note that you are able to override this default setting during Access Code creation and to edit and change it at any time thereafter.

Display Sub Account Search in *Manage Individual Sub Accounts*

- If you have a large number of Sub Accounts, this option allows you to locate an individual sub account by entering a User ID, Administrator Name, Email Address, or Company Name.
- The **Show all Sub Accounts** button on this screen will retrieve the entire sub account list.

See [Manage Individual Sub Accounts](#) for additional information.

Enable Future Delivery and Auto Reminder

- This feature allows you the ability to delay the delivery of Access Codes and to set up an automatic reminder to Respondents with incomplete assessments.
- When this option is enabled, Access Code creation will include an optional delayed email delivery and/or automatically generated reminder.

Change User ID/Password

To change your User ID or Password, go to **Personal Options ▶ Change User ID/Password**.

In the **Select a function to perform** box, choose to change your Password, your User ID, or both. The page changes to display the correct fields depending on what you choose to change.

Change Your Password

Go to **Personal Options ▶ Change User ID/Password**.

Enter a password that meets the required security settings. Press the **Save** button to update your login information.

Your password:

- Must be at least Medium in strength
- Must be at least 9 characters long
- Cannot be the same as your User ID

To increase the strength of your password you should:

- Include both lower and upper case letters
- Include at least one numeral
- Include at least one special character: ! @ # \$ % ^ & * () - _
- Increase the length beyond the 9 character minimum to 12 or more characters

Change Your User ID

Go to **Personal Options ▶ Change User ID/Password**. Enter a new User ID and your existing Password, then press **Save** to update your account information.

- User IDs in EPIC must be unique; if the User ID you select is already in-use by another EPIC system user, you will need to make another selection.
- Tip: Adding a prefix or suffix to a common User ID (e.g. jsmith01, 1jsmith) will, in most cases, create the unique ID required by the system.
- Your User ID cannot contain blank spaces or use any of the following special symbols: () < > @ , ; : \ " [] * / | ?

You can also contact Partner Care for assistance with resetting the password on your accounts. Primary accounts can reset passwords for their Sub Accounts. *See [Reset Sub Account Password](#) for more information.*

Custom messages can be used in EPIC when:

- Assigning, resending, and unassigning Access Codes
- Transferring credits

Your Custom Message Library

Messages are organized into folders. You can create, rename, and delete custom message folders. A single message or groups of messages can also be transferred between folders using the Transfer Contents function.

Go to **Personal Options** ► **Manage Custom Messages:**

Create a New Message Folder

Press the **Create a new Message Folder** button to create a new folder. This folder name is available for you to select during functions which include custom email messages.

Create a new Message

Use the **Create a new Message** button to create a new custom message. An option is provided during creation for you to choose the folder in which to store the custom message. ([See More...](#))

Manage Existing Message Folders

- Use the **Create a new Message** link to create a new custom message in that particular folder.
- Press the **Rename** link for a folder to edit the folder name.*
- Use the **Delete** link to delete an empty folder.*

- Press the **Transfer Contents** link to move custom messages between folders.
- View the contents of a folder by pressing the  symbol to its left. **Edit** or **Delete** individual messages by pressing the respective link.

* Folders placed into your account by Wiley Tech Support cannot be deleted or renamed; these are occasionally populated with new custom messages to support product releases.

Create a New Custom Message

To begin, press either the **Create a new Message** button or the **Create a new Message** link for a particular folder. Either way you will be allowed to choose or change the folder location during the new message creation process.

1. Give your custom email message a title.
2. Select a folder in which to store the new message (if the correct folder is not already chosen).
3. In the text editing area, enter the text you want to include in your message.
4. Use [System Variables](#) to add dynamic fields to your messages, allowing them to be used for various Respondents and products.
5. Use the [HTML editor](#) toolbar to add style to your text, images such as your company logo, or hyperlinks to websites you wish to include.
6. Press the **Save** button to complete the process.

Test Your Custom Messages Before Use

To test your messages before using them, create an Access Code and send it to yourself using your new custom message to verify the layout of the message. Once you have received and reviewed your message, Unassign the Access Code to reclaim the credits. (See [Use a Custom Email Message](#))

System Variables (Dynamic Fields)

Personalize your custom email messages using the six (6) EPIC System Variables: [RESPONDENT NAME], [LEADER NAME], [ACCESS CODE], [ADMIN COMPANY NAME], [ADMIN NAME], and [PRODUCT NAME].

Before the email is sent, EPIC replaces the field placeholder with the actual Respondent Name, Leader Name, etc.

To use a System Variable, either (1) enter it into the subject line or body text within the brackets, and using all capital letters (example: [LEADER

MyEverythingDiSC.com Custom Messages

When you have qualifying Everything DiSC products in your EPIC account, two (3) [MyEverythingDiSC.com](#) custom messages are provided for you to choose anytime EPIC asks you if you would like to include a custom email message to your Respondents.

What are the MyEverythingDiSC.com Custom Messages?

One of the custom messages is designed to be sent out with brand new Access Codes; when you create new profiles. This message is titled: "Assigning a New Profile with MyEverythingDiSC.com Options". The message contains a link to a video which walks Respondents through creating a MyEverythingDiSC.com account.

The other message is designed to be sent to Respondents with existing, completed reports. The email instructs Respondents where to use the link in the email to connect to MyEverythingDiSC.com.

The third message is designed to be sent to Respondents who had previously created a MyEverythingDiSC.com during our first beta release. This email lets them know that there will be new content when they sign into the new website using their existing User ID and password.

Manage Report Tailoring

Available for eligible products, product tailoring allows you to customize a report title, report page order, and the inclusion/exclusion of pages. This option will be available to you during report creation and editing when you have created at least one (1) tailored report of the similar product type.

Create a New Tailored Report

Go to **Personal Options** ► **Manage Report Tailoring** and press the **Create a New Tailored Report** button.

1. Select a **Product Family**, **Product**, and **Language**. Enter a **File Name** (this **File Name** appears in EPIC drop-down lists for your tailored reports).
2. Use the default program name, or enter a custom program name (appears on report cover).
3. Add an optional description (used for managing your custom tailoring only - does not appear on report cover). View a sample report cover by clicking the **Color Report Cover** link.
4. Using your cursor, select a page to move or delete, then select the action to apply to the selected page. Moving and deleting pages is limited in report tailoring. EPIC displays an informative message when an action cannot be performed.
5. Select a Section to move, then select **Move Up** or **Move Down**. Moving sections is not available for all products. For available products, section moves are not available for all sections of the report. EPIC displays an informative message when an action cannot be performed.
6. Press the **Save** button to save your tailored report.

Edit a Tailored Report

1. Select the **Edit** link for the report you wish to edit.
2. Make your changes, then press the **Save** button to save your changes.

Tip: Use the **Reset Pages** link to undo your prior tailoring and apply new/different tailoring.

Delete a Tailored Report

1. Select the **Delete** link for the report you wish to delete.

2. Confirm deletion by pressing the **OK** button.
3. When you delete a tailored report that is currently applied to your Access Codes/reports, a warning message displays. Click **OK** to continue to delete the tailored report and to allow EPIC to revert the affected reports to their default pages.

Apply Product Tailoring to Reports/Access Codes

Product tailoring can be applied or removed for a report at any time:

- **Edit Existing Reports:** Use the [Advanced Options Change Report Options/Content](#) button to apply or remove product tailoring for a selected report.
- **Batch Functions** ▶ [Edit Report Options](#): Apply or remove product tailoring for a selection of reports.
- [View/Print/Email Completed Reports](#): apply or remove product tailoring for a selected report before you view/print it.
- **Batch Functions** ▶ [Generate Reports for Download](#): apply or remove product tailoring for a selection of reports before you generate them for download.

Create Sample Reports

Use this function to create personalized samples of the profiles in your EPIC account. You can produce a sample report that is personalized with your company logo and contact information, and choose to include or omit report sections, when available.

Go to **Personal Options** ▶ **Create Sample Reports** and choose the **Product Family**, **Product** and **Language** of the report you wish to generate. EPIC generates a PDF version of the report that can be printed, emailed or saved.

MyEverythingDiSC.com is a mobile-friendly, interactive learning portal that is exclusive to the Everything DiSC® solutions. An important capstone to any learning program, this follow-up site cements the lessons that Respondents are introduced to in their Everything DiSC profiles and classroom experiences, extending their learning into the future. MyEverythingDiSC.com enables your EPIC Respondents to actively incorporate their new DiSC® knowledge into their daily work. It offers them insights into their own DiSC style and strategies for working and communicating with others.

[Read more about how it works and Respondent takeaways...](#)

How it Works

Use of the MyEverythingDiSC.com website requires Respondents to create an account and import their completed Everything DiSC profile. You, their EPIC administrator, can turn on access to all or part of MyEverythingDiSC.com at any point of the assessment process, or as a follow-up after their classroom training. Importing a profile is easy to do – see our step-by-step instructions for importing a profile into MyEverythingDiSC.com.

Your Respondents are able to access their profile, discover more about their style, gain insights to working with customers through Customer Interaction Maps (exclusive to the Everything DiSC® Sales profile), and view Comparisons with other MyEverythingDiSC.com site users. Both individual and group comparisons can be created, and both offer content exclusive to MyEverythingDiSC.com.

Respondent Takeaways

- Access profiles anytime, on any device
- Deepen understanding of the theory and research behind Everything DiSC®
- Learn more about how their DiSC styles impact workplace preferences
- Invite others to compare DiSC styles—and accept invites to compare from others
- Create Customer Interaction Maps for improving sales relationships (Exclusive to Everything DiSC® Sales)

What are the MyEverythingDiSC.com options in EPIC?

Once an EPIC account holder has this feature enabled, there are 4 MyEverythingDiSC.com options that can be added to Everything DiSC reports:

Option 1: Access to the MyEverythingDiSC.com site

This basic access to the site allows your EPIC Respondents to create and activate an account. An activated account results in their Everything DiSC report being automatically uploaded - no extra steps required.

Option 2: My Style

The My Style page in MyEverythingDiSC.com is personalized to the Respondent's DiSC style. The interactive DiSC map provides insight regarding their interaction, environment, and communication preferences for each of the behaviors displayed around the DiSC map. Respondents also find out how aligned they are to their style; what their most and least expected assessment answers are for a person with their particular DiSC style.

Option 3: My Comparisons

- Respondents can create 1:1 Comparisons and Group Comparisons with up to nine (9) other people.
- Site-exclusive content available through My Comparisons provides Respondents with useful tips on interacting with their coworkers based on their DiSC styles. These insights include managing tension, presenting information, getting buy-in, providing/receiving feedback, and getting to know each other.
- Respondents choose which Comparisons they are included in by accepting invitations, and can choose to exclude their name and email address from the search results of other MyEverythingDiSC.com participants.
- Your Respondents can download and print an EverythingDiSC Comparison Report (just like those generated in EPIC) for any of their 1:1 Comparisons.

Option 4: My Customers

- My Customers is available only to Respondents with an Everything DiSC Sales profile.

- Respondents use this valuable tool to create Customer Interaction Maps, which help them understand important similarities and differences between their selling style and their customer's buying style in order to adapt to that customer's needs.
- Respondents have the ability to create and access an endless number of Customer Interaction Maps on MyEverythingDiSC.com - from anywhere, anytime.

Give MyEverythingDiSC.com Options to Your New & Existing Respondents

You have the ability to create new Everything DiSC profiles that give your Respondents access to MyEverythingDiSC.com, which will be communicated to them on the last page of the online assessment. You can also add and remove general access and any of the options at any time - for both completed and pending reports. EPIC provides you the flexibility to turn MyEverythingDiSC.com options, as well as the ability to view their EverythingDiSC report, on and off in any combination of ways - you get to decide the implementation that works best for you and your client.

Determine Which Options to Give Respondents

Depending on your training facilitation style, you may choose give Respondents basic access to MyEverythingDiSC.com and add the *My Style*, *My Comparisons*, and *My Customers* options at a later date. Or maybe you would like to showcase MyEverythingDiSC.com during training and wait to give your Respondents access until after the classroom? EPIC sends an email each time you add an option to a Respondent's completed report that benefits them in some way. This can include a change which allows them to view their report online or one which gives them additional access in MyEverythingDiSC.com - making it easy to incorporate MyEverythingDiSC.com into any part of your training program.

Note that the **View Report** option does not affect your Respondents' ability to access MyEverythingDiSC.com. When **View Report** is set to **No**, Respondents will still be able to create a MyEverythingDiSC.com account and access any features you have enabled, but they will not be able to generate their full report inside of the site.

Also note that giving your Respondents the My Style option will allow them to see their DiSC style even if **View Report** is set to No.

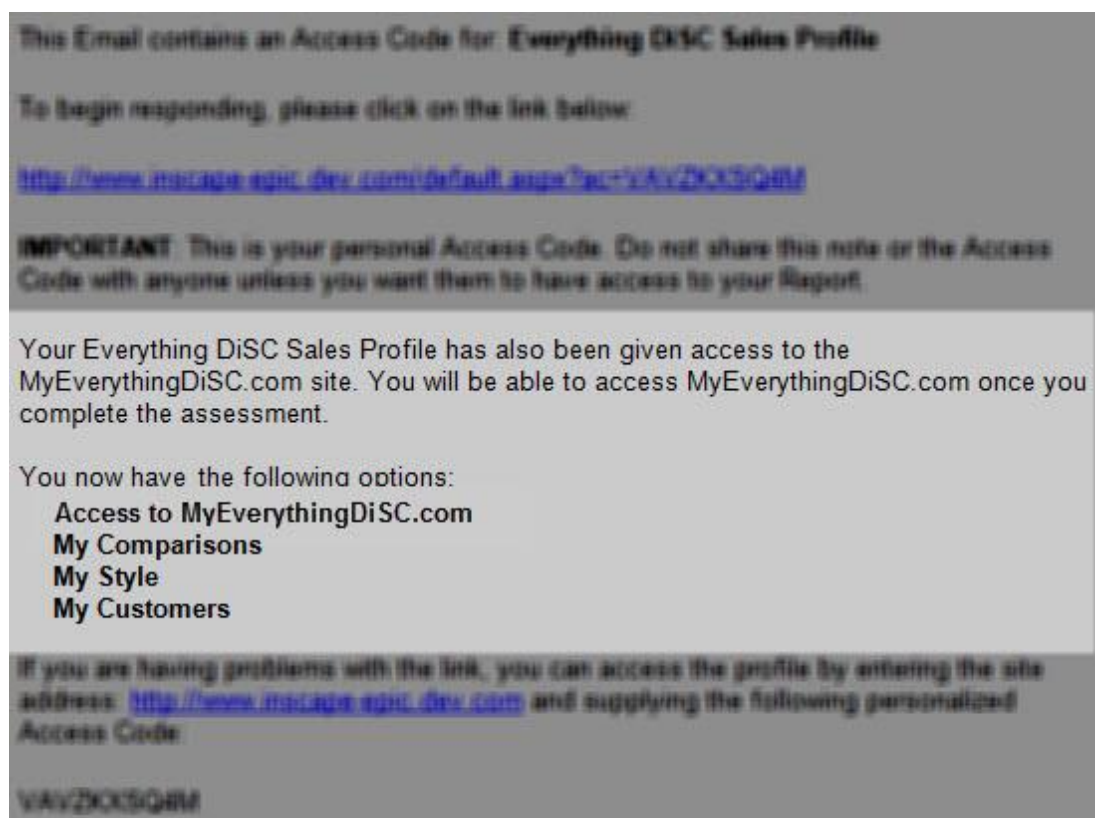

Create new Profiles with MyEverythingDiSC.com Options

When the MyEverythingDiSC.com features have been enabled for your EPIC account, they are displayed as Report Options while you are creating new reports. You can choose to give Respondents just basic access to the site, or basic access plus any combination of available options.

To create new reports with MyEverythingDiSC.com options, go to **Manage Reports ▶ Create a New Report/Issue Access Codes** and choose one of the qualifying Everything DiSC products (Workplace, Sales, Management, Work of Leaders, and 363 for Leaders). Continue through the steps for [new report creation](#), which ends in an email to Respondents.

What does the Respondent see?

The Access Code email sent to your Respondents includes a summary of MyEverythingDiSC.com options along with the link to their online assessment as shown here:

The last page of the online assessment includes a link to MyEverythingDiSC.com, where Respondents create an account. MyEverythingDiSC.com sends them an account activation email to

verify their email address. When the Respondent clicks on the link in the account activation email, they are automatically logged into the new account with their report already uploaded.

When you give an Everything DiSC 363 Leader access to MyEverythingDiSC.com, this will allow the Leader to be able to view their profile inside of MyEverythingDiSC.com, as long as their report meets the completion requirements for report generation (Leader plus one (1) manager, or Leader plus two (2) of any rater type).

Click [here](#) to view best practices for giving MyEverythingDiSC.com access to Leaders with an ED 363 profile.

When you give an Everything DiSC 363 Leader access to MyEverythingDiSC.com, this will allow the Leader to be able to view their profile inside of MyEverythingDiSC.com, as long as their report meets the completion requirements for report generation (Leader plus one (1) manager, or Leader plus two (2) of any rater type).

Click [here](#) to view best practices for giving MyEverythingDiSC.com access to Leaders with an ED 363 profile.

Add or Remove Options for an Individual Report

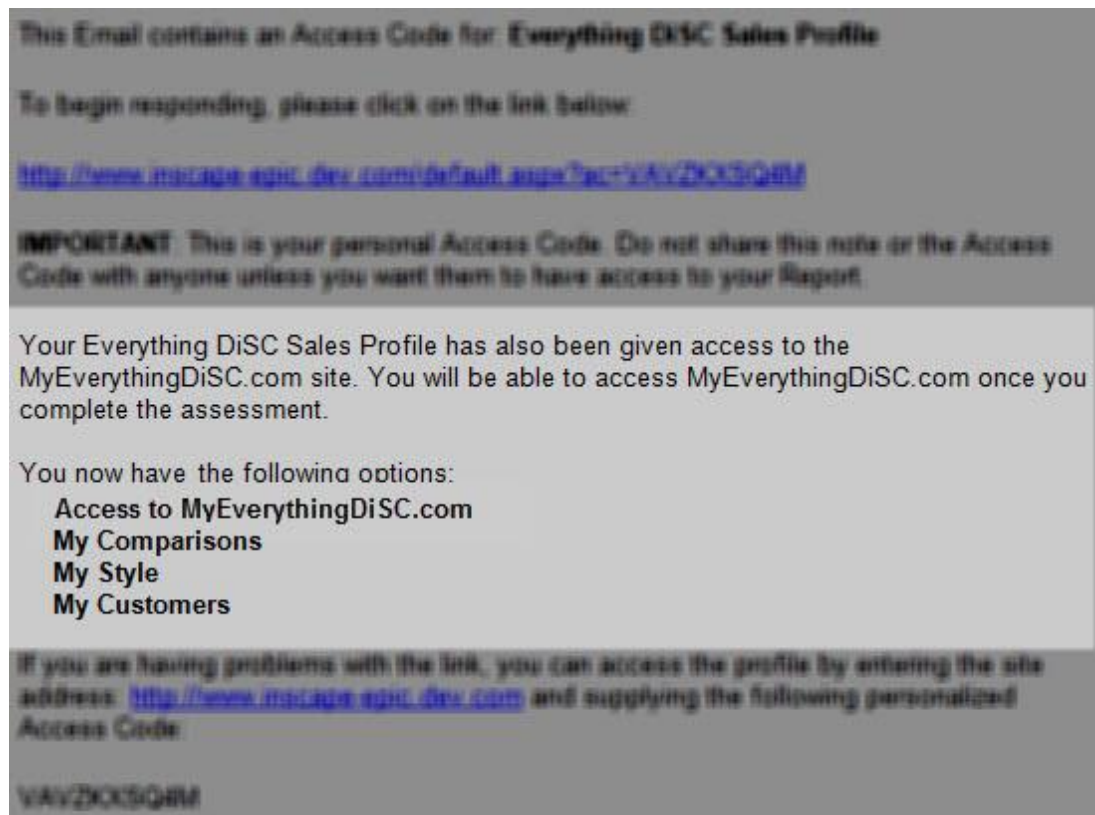

1. Go to **Manage Reports** ▶ **Edit Existing Reports**.
2. Search for and select a profile to edit.

3. Once the report info is displayed on the page before you, press the **Change Report Options/Content** button in the **Advanced Options** section near the bottom of the page.

4. A pop-up message will appear; press the **OK** button.

5. Make changes in the MyEverythingDiSC.com Options section shown in the image below, then press the **Save** button at the bottom of the page to apply your changes.

EPIC sends an email to Respondents when you add MyEverythingDiSC.com options, and gives you the chance to add a custom message. A sample email is shown here:

Leap Forward Program

From June 22, 2015 through October 31, 2016, anyone who has completed a DiSC Classic profile in your EPIC account can take an *Everything DiSC* profile at a special reduced cost - 10 credits off for *Everything DiSC Workplace*, *Work of Leaders*, *Management* or *Sales*.

 This discount **is automatically applied** when using the **Create a New Report/Issue Access Codes** function.

Everything DiSC Profile	Normal Price	Special Migration Price* (Must have a Completed DiSC Classic 1.0, 2.0, 2 Plus or PPSS profile in your EPIC account.)
Everything DiSC Workplace	15 Credits	5 Credits
Everything DiSC Work of Leaders	25 Credits	15 Credits
Everything DiSC Management	25 Credits	15 Credits
Everything DiSC Sales	25 Credits	15 Credits

*These reflect the prices for English language products. Other language credit prices may differ based on the language. Any available language will offer a 10 credit discount through this program.

Create Discounted Reports

Use the **Create a New Report/Issue Access Codes** function to create a new report. While adding Respondents, instead of entering the person's name and email address, use the **Use Existing Report** function below. The EPIC credit discount will automatically be applied for eligible DiSC Classic to Everything DiSC migrations.

Use Existing Report

When available, select the **Use Existing Report** tab, then use the **Search** button to search for and select Respondents with completed profiles.

Enter Individual

Import from Excel

Use Existing Report

Use the **Search** button to locate existing respondents who have already taken a report.

Note: Depending on the report, respondents may still need to answer additional questions.

Search

- When using one completed Everything DiSC Respondent to create a new Everything DiSC or Five Behaviors report, Respondents will not be required to take the DiSC portion of the assessment again. Their previous DiSC style scores will be used in the new report, and only the report-specific questions will be asked of them.
- When using a completed DiSC Classic report to create an Everything DiSC report, the Respondent name and email address are carried forward, and the Respondent will be able to take the complete Everything DiSC assessment.

EPIC displays a message when one or more of your Respondents qualifies for the Leap Forward credit discount, and the credit deduction is automatically applied:

Add Raters

Either use the **Enter Individual** tab to enter an email address, name and rater type for each of your raters, or use the **Import from Excel** tab to import a rater list. See [Download Import Templates](#) for additional information.

Add Raters 

Be aware of the number of each Rater type you plan to use to create the report. Although it does not affect the issuing of Access Codes, minimum requirements must be met in order for EPIC to generate an ED 363 report.

- The Leader must have completed their assessments in order for a report to be generated.
- A minimum number of Raters of any type who have completed their online assessments must be met before EPIC will generate a completed report. Minimums are:
 - **Manager** = 1

 If a manager is included in the report, the report can be generated and viewed once the Leader and one (1) manager has completed the online assessment, regardless of the number or type of Raters who have not yet completed their assessments.

- **Peer** = 2
- **Direct Report** = 2
- **Other** = 2

You do not need to use all of the Rater types.

Example: *If you have three (3) Peers and (3) Direct Reports in a report, the report can be generated once the Leader and any two (2) of the same Rater type have completed the online assessment.*

- In cases where you want to generate the report and the minimum has not been reached (or may never be reached) you can use the [Edit Exiting Reports](#) function to change the Rater type or use the Include function to temporarily remove any Rater responses from the report.

See Also: [Create a New Report/Issue Access Codes](#)

Add Respondents

Enter Individual Respondents

- Select the **Enter Individual** tab and enter an email address and a name for a Respondent, then press the **Add...** button (depending on product, button will read Add Respondent, Add Rater, or Add Team Member).

Enter Individual Import from Excel Use Existing Report

After entering the Respondent information, click the **Add Respondent** button to add the name to the list. Click the **Assign Access Codes** button when you're finished adding Respondents.

(Note: If you assign more than 10 Access Codes, they will be queued for delivery and sent out in intervals to avoid being marked as "spam" by the Respondent's email server.)

Email Address: Name: Quantity: View Report: ☒ Yes ☐ No **Add**

- **Quantity:** When quantity is available, you can enter a number to send more than one (1) Access Code to the email address entered.
- **View Report:** Choose **Yes** to allow the Respondent to view their completed report online immediately upon completion. Choose **No** and you have the option of changing to **Yes** at a later date.
 -  Five Behaviors reports have a default view of **No**.
 -  Everything DiSC 363 for Leaders reports cannot be set up to be viewed online by the Leader.
- **Gender:** Entering a gender for ED 363 for Leaders report tailors the assessment to properly refer to the Leader as "he" or "she".

Add Raters: Although it does not affect the issuing of Access Codes, minimum requirements must be met in order for EPIC to generate a

 report.

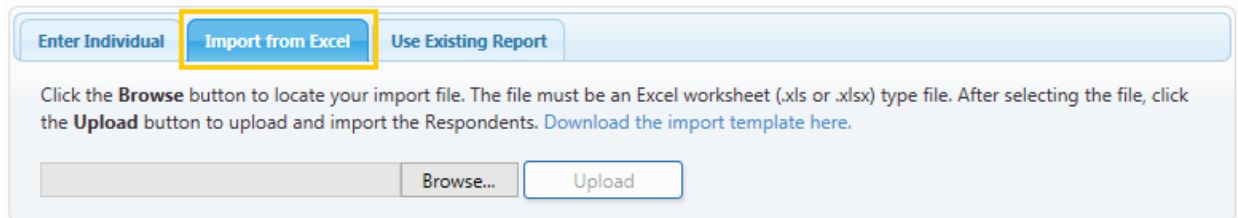

- A minimum number of Raters of any one type must be met before EPIC will generate a completed report. Minimums are:
 - Manager = 1
 - Peer = 2
 - Direct Report = 2
 - Other = 2
- **Note:** You do not need to use all of the Rater types.
- In cases where you want to generate the report and the minimum has not been reached (or may never be reached) you

can use the [Edit Existing Reports](#) function to change the Rater type or use the Include function to temporarily remove any Rater responses from the report.

Import Respondents Saver

Select the **Import from Excel** tab and upload an Excel spreadsheet of Respondents.

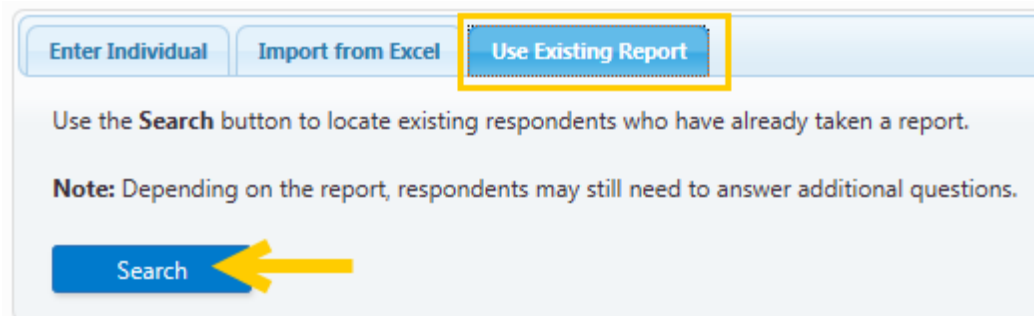

See [Download Import Templates](#) for complete instructions.

The screenshot shows the 'Import from Excel' tab selected in a three-tab interface. Below the tabs, there is instructional text: 'Click the **Browse** button to locate your import file. The file must be an Excel worksheet (.xls or .xlsx) type file. After selecting the file, click the **Upload** button to upload and import the Respondents. [Download the import template here.](#)' At the bottom, there is a text input field, a 'Browse...' button, and an 'Upload' button.

Use Existing Report

 Saver When available, select the **Use Existing Report** tab, then use the **Search** button to search for and select Respondents with completed profiles.

The screenshot shows the 'Use Existing Report' tab selected in a three-tab interface. Below the tabs, there is instructional text: 'Use the **Search** button to locate existing respondents who have already taken a report.' Below this is a note: '**Note:** Depending on the report, respondents may still need to answer additional questions.' At the bottom, there is a blue 'Search' button with a yellow arrow pointing to it from the right.

Advanced Report Options

Depending on the report type you are editing, the Advanced Options can vary. The topics below include help for both the **Use existing data for new report** button and the **Change Report Options/Content** button.

Change Report Options/Content button

- Options you can modify after choosing the **Change Report Options/Content** button are similar to those you set up during initial Access Code creation.

Advanced Options ?

- When you make changes which do not automatically generate an email to Respondents, and you wish to notify Respondents of updated report options, use the [Resend Login Information](#) function to send an updated email to Respondents. The new link will allow Respondents to view any additional changes you have made to the report options.

Use Existing Data for New Report button

While editing an existing group, team or facilitator report, you have the option to use all of the Participants to create a group report of a different type. In the **Advanced Options** section, first select a report from the drop-down list, then press the **Use existing data for new report** button and then follow the steps for [creating a group, team or facilitator report](#).

Advanced Report Options

Advanced Options allow you to control EPIC system defaults and settings for your account.

Menu location: **Personal Options** ▶ **View/Edit Account Information**

Advanced Options 

The screenshot shows a form titled "Advanced Options" with a help icon. It contains the following settings:

- Session Timeout: 120 minutes (with a dropdown arrow)
- ☒ View report online default
- ☐ Display Sub Account Search in *Manage Individual Sub Accounts*
- ☒ Enable Future Delivery and Auto Reminder feature for assigning Access Codes
- ☒ Allow me to customize the subject line for the Auto Reminder email

Session Timeout

As a security feature, EPIC automatically logs you out of the system when no activity is occurring. The default setting is 20 minutes of inactivity, but you can choose to increase this amount up to 120 minutes.

View Report online default

Set a default of either **Yes** or **No** to have the **View Report Online** option default to one or the other for Respondents during Access Code creation.

Note that you are able to override this default setting during Access Code creation and to edit and change it at any time thereafter.

Display Sub Account Search in *Manage Individual Sub Accounts*

- If you have a large number of Sub Accounts, this option allows you to locate an individual sub account by entering a User ID, Administrator Name, Email Address, or Company Name.
- The **Show all Sub Accounts** button on this screen will retrieve the entire sub account list.

See [Manage Individual Sub Accounts](#) for additional information.

Enable Future Delivery and Auto Reminder

- This feature allows you the ability to delay the delivery of Access Codes and to set up an automatic reminder to Respondents with incomplete assessments.
- When this option is enabled, Access Code creation will include an optional delayed email delivery and/or automatically generated reminder.

Delivery and Auto Reminder Options ?

Send reminder:	<input checked="" type="radio"/> Never <input type="radio"/> If not completed by

- You must set your Time Zone Settings to use this feature.

Allow me to customize the subject line for the Auto Reminder email

Once you've activated the Delivery and Auto Reminder feature, you also have the option to use a Custom Reminder Subject when using the Auto Reminder feature. This allows you to specify a unique email subject line for the Auto Reminder email message.

By default, if you choose not to use a custom reminder subject, the default subject - the same subject initially sent to Respondents - will be used.

Credits

Credits are the currency used in EPIC, and are needed to create new reports, issue Access Codes, and add supplemental reports.

Credit Balance & Credit Reminder

Your current credit balance is displayed in the upper left portion of your EPIC administrator screen along with your User ID.

When the credit balance font color changes from Black to **Red**, it is an indication that you have reached your **Credit Reminder** threshold.

Purchase or Transfer Credits

Credits can be:

- Purchased on-line using the Purchase Credits Online function.
- Transferred to a Sub Accounts using the [Transfer Credits](#) link for a Sub Account.
- Transferred from a Sub Account back to its Parent Account using the [Transfer Credits to Parent Account](#) function.
- Purchased by phone from Partner Care.

Credits Charged for Reports

Anytime credits are about to be deducted from your account, you will receive a confirmation message asking you to confirm the deduction. Credits will never be removed from your account unless you approve the deduction by pressing **OK**:

Each report in the system is assigned a credit value. Credit values assigned to each of the reports can be reviewed at **Manage Your**

Account ▶ Credits Charged for Reports. Credits are charged when you create reports using the following functions including:

- Entering [Tally Box Scores](#) to generate a report ([Create a New Report/Issue Access Codes](#))
- Creating a facilitator or group report ([Create a New Report/Issue Access Codes](#))
- Creating new reports using the **Edit Existing Reports Advanced Options Use Existing Data for New Report** button for a selected report
- **Batch Functions ▶ Use Existing Data for New Report**
- [Edit Existing Reports](#): when adding supplemental reports to an existing report

Generate and Regenerate Reports at No Additional Charge

Report generation using [View/Print/Email Completed Reports](#) does not deduct additional credits from your credit balance.

Credit Reminder

- The Credit Reminder informs you that your EPIC Credit balance is running low. When the credit balance reaches the number entered into this field, EPIC sends an email reminder to the account administrator that the Credit balance has reached this threshold.

Data Protection Policy

The Data Protection Consent Form is designed to meet the conditions outlined by the European Union Directive 95/46 and the UK Data Protection Act of 1998, relating to the protection of individuals with regard to the processing of personal data. The site is also certified compliant with U.S.-EU Safe Harbor and is recertified every year by TRUSTe.

Respondents for all 'non-US English' profiles must accept the policy to begin an online assessment. When a Respondent does not accept the policy, they are not allowed to continue to take the online assessment, and an email is sent to the EPIC administrator for the account.

This Web site is designed to provide you with a personalized Report. By clicking Accept, you agree that Wiley can use the data, including personal data you enter on this web site, for the purpose of generating your personalized report. You will be required to provide your first and last name and respond to a series of questions, words, or statements that will be used to create your customized report. Optionally, you can provide demographic information such as age, location, education, and employment that will be used by Wiley for continued validation of this report. We also collect your email address to send you your results. This consent form sets out the manner in which your responses will be collected, processed, transferred, used, and stored.

We will not send you any promotional communications. We will only send you service related communications that are necessary to perform the duties of the site. We do not share, sell, rent, or trade personal data collected on this site with third parties for their promotional purposes.

We will share your personal data with third parties only in the ways that are described in this privacy policy.

We reserve the right to disclose your personal data as required by law and when we believe that disclosure is necessary to protect our rights and/or comply with a judicial proceeding, court order, or legal process served on our Web site.

If Wiley is involved in a merger, acquisition, or sale of all or a portion of its assets, you will be notified via email and/or a prominent notice will be displayed on our Web site of any change in uses of your personal data, as well as any choices you may have regarding your personal data.

This consent form will also set out your rights of access and correction to your personal data. The data, including personal data, you provide to us through this web site will be transferred to the United States (if not already in the United States) and stored on Inscape Publishing's secure server located in Minneapolis, Minnesota. Access to your personal data and any demographic information you supplied is restricted to authorized personnel and staff at Inscape Publishing, Inc.

Your personalized report will be provided to you in one of two methods depending upon the option selected by the individual (administrator) who sent you the access code for this profile: 1. Immediate availability of the report through this web site. If this option has been selected, you will be presented with choices to View, Print, Save or Email your report upon completion. 2. Physical delivery of the report by the administrator. The report delivery option selected by your administrator will be displayed to you upon completion of the response section of this web site.

The administrator who sent you the access code to this report does have access to your personal data, such as your first and last name, and email address. They will only use this third party personal data for the purpose it was intended for.

If you would like access to the personal data we have on file to correct inaccuracies or delete it, please contact us at the information below. We will respond to your request within 30 days.

The administrator who sent you the access code has access to the completed report – not the individual data items and responses provided by you nor the optional demographic information. If you choose to provide additional demographic information, this information, together with your individual responses, is used for research purposes only. It will not be provided to the administrator or to any third parties, and is not linked to your name or any other identifiable personal information. Inscape Publishing will not transfer your data to any third party or make the data available for use outside of its system.

We will retain your information as long as needed to provide you access to your completed profile. We will retain and use your information as necessary to comply with our legal obligations, resolve disputes, and enforce our agreements.

Information Related to Data Collected for our Clients

Wiley collects information under the direction of its Clients, and has no direct relationship with the participants whose personal data it processes. If you are a participant of one of our Clients and would no longer like to be contacted by one of our Clients that use our service, please contact the Client that you interact with directly.

A participant who seeks access, or who seeks to correct, amend, or delete inaccurate data should direct his query to Wiley's Client (the data controller). If requested to remove or access data we will respond within 30 days.

We will retain personal data we process on behalf of our Clients for as long as needed to provide services to our Client. Wiley will retain this personal information as necessary to comply with our legal obligations, resolve disputes, and enforce our agreements.

Security

The security of your personal information is important to us. When you enter information on our registration or order forms, we encrypt that information (such as login credentials) using secure socket layer technology (SSL). Our entire site is SSL encrypted.

We follow generally accepted industry standards to protect the personal information submitted to us, both during transmission and once we receive it. No method of transmission over the Internet, or method of electronic storage, is 100% secure, however. Therefore, while we strive to use commercially acceptable means to protect your personal data, we cannot guarantee its absolute security.

Log Files

As is true of most Web sites, we gather certain information automatically and store it in log files. This information includes internet protocol (IP) addresses, browser type, internet service provider (ISP), referring/exit pages, operating system, date/time stamp, and clickstream data.

We use this information, which does not identify individual users, to analyze trends, to administer the site, to track users' movements around the site and to gather demographic information about our user base as a whole.

We do not link this automatically-collected data to personally identifiable information.

Cookies

Technologies such as: cookies, beacons, tags and scripts are used by Wiley or analytics. These technologies are used in analyzing trends, administering the site, and to gather demographic information about our user base as a whole. We may receive reports based on the use of these technologies by these companies on an aggregated basis.

We use cookies to make it easier for you to navigate our site. Users can control the use of cookies at the individual browser level. If you reject cookies, you may still use our site, but your ability to use some features or areas of our site may be limited.

Changes in this Data Privacy Statement

If we decide to change our privacy policy, we will post those changes to this privacy statement, the home page, and other places we deem appropriate so that you are aware of what information we collect, how we use it, and under what circumstances, if any, we disclose it.

We reserve the right to modify this privacy statement at any time, so please review it frequently. If we make material changes to this policy, we will notify you here, by email, or by means of a notice on our home page prior to the changes becoming effective.

The HTML editor toolbar is available when your email format is set to HTML in the **Email Options** section at Personal Options ▶ View/Edit Account Information. Add text formatting, graphics and hyperlinks using these HTML editor tools.

Getting Started Guide

Use the links below for help on setting up your new EPIC account and creating new reports.

Terms and Definitions

Before you get started, check out the meanings of some commonly used terms, such as "credit" and "access code". (Go to [Terms and Definitions](#))

Set Up Your Account & Add Your Brand

Choose **Personal Options** ▶ **View/Edit Account Information** from the EPIC menu.

Enter your contact information, company information and logo to add your brand to EPIC assessments and profiles. You can also use this function to set your default account settings in EPIC; these settings can be used to save you time and activate administrative features for your account.

(Go to the [View/Edit Account Information](#) help topic)

Create New Reports & Email Online Assessments to Your Participants

Choose **Manage Reports** ▶ **Create a New Report/Issue Access Codes** from the EPIC menu.

Select one of your available products, and then add the names and email addresses of your participants (EPIC Respondents). EPIC creates a unique Access Code for each Respondent's report. The Respondents receive an email containing a link to an online assessment, and their responses are used to create their completed report.

(Go to the [Create a New Report/Issue Access Codes](#) help topic)

Resend the Assessment Email to Your Participants

Choose **Manage Reports** ▶ **Resend Login Information** from the EPIC menu.

Search for the pending assessments using the Search function, select the report Access Codes you wish to have resent (via email) to your participants, and optionally, create a custom email message to include.

(Go to the [Resend Login Information](#) help topic)

Edit Existing Reports

Choose **Manage Reports** ▶ **Edit Existing Reports** from the EPIC menu.

Add or remove members from an existing team or group report, change Respondent information, or add or remove report options for pending and completed reports.

(Go to the [Edit Existing Reports](#) help topic)

(Go to the [Edit Existing Five Behaviors Team](#) help topic)

Print a Set of Completed Reports to Take to Training

Choose **Manage Reports** ▶ **Batch Functions** ▶ **Generate Reports for Download** from the EPIC menu.

Search for the group of reports you wish to print, and EPIC generates the reports all at one time. (EPIC "generates" a report by pulling in the most recent set of online assessment responses for the participant.) EPIC will create a folder containing the whole set of generated reports for you. You can quickly save these PDF formatted files to your computer to print all at one time.

Instructions for Creating a New Account

There are two different ways in which to create a new MyEverythingDiSC.com account. The first version below is for Respondents with MyEverythingDiSC.com options tied to their reports, and will result in their report being uploaded into their new account. The second version is for Respondents who do not have MyEverythingDiSC.com options tied to their report. Please note that this version will result in a successfully created account, but their report will not be uploaded.

Create a New MyEverythingDiSC.com Account - Respondents have MyEverythingDiSC.com options tied to their report.

1. Click on the link in the email you received:

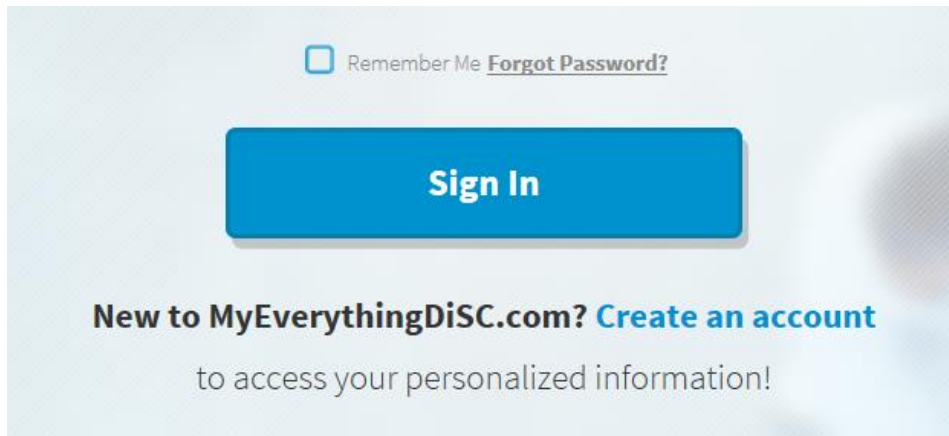

To begin responding, please click on the link below:

[https://www.inscape-epic.com/default.aspx?ac=\[ACCESS CODE\]](https://www.inscape-epic.com/default.aspx?ac=[ACCESS CODE])

2. This opens the website where you take your Everything DiSC assessment. Complete your assessment first. On the last page of the assessment, press the **"Go to My EverythingDiSC.com"** button.

3. This opens the MyEverythingDiSC.com website.
 - Always use the link in your email to get to the website – this ensures that your completed report is automatically uploaded into your new account.*
 - Press the **"Create an account"** link below the **Sign In** button.

4. Enter all required information, and then press the **CREATE AN ACCOUNT** button.
5. An activation email is sent to the email address you just entered.
 - Open that email and press the “**Activate your account on MyEverythingDiSC.com**” link.

Hello Marcus,

A MyEverythingDiSC.com account has been created for you! Before you can sign in, you must first activate your account.

Your account is now activated! You can explore the site, but will not see any personalized content until you have added an Everything DiSC report to your account.

To add a report to your account:

1. Locate the email from your Everything DiSC administrator, and click on the link that takes you to your online assessment.
2. On the last page of the online assessment, press the “**Go To MyEverythingDiSC.com**” button. (If you do not see this button, your administrator has not given you access to the site - contact your administrator.)

3. On the Sign In page for MyEverythingDiSC.com, enter your login credentials, and then press the **Sign In** button.

The image shows a web page for signing in to MyEverythingDiSC.com. At the top, it says "Sign in" and "Welcome back". Below this are two input fields: the first is for an email address, indicated by an envelope icon, and the second is for a password, indicated by a lock icon and the word "Password". Below the password field is a checkbox labeled "Remember Me" and a link that says "Forgot Password?". A large blue button labeled "Sign In" is centered below these fields. At the bottom, there is a message: "New to MyEverythingDiSC.com? [Create an account](#) to access your personalized information!".

ED 363 Leader Name and Gender

ED 363 Leader names cannot be edited once Access Codes have been created. Unassign pending Access Codes and re-create the report to correct the leader name. (This will be the leader name as seen by the raters, but will not be the name on the completed report.)

Note that the name entered by the Leader while taking the assessment will appear on the completed report cover, and not the name entered by the EPIC administrator during Access Code creation.

For pending  ED 363 Access Codes, the gender entered determines how the assessment reads to the Raters ("He/She" etc.). Any edit made to the gender field for the Leader will be seen immediately by Respondents taking the assessment.

Printing in Greyscale/Black and White

Using your printer settings, you can print a color report in greyscale/black and white.

Generate the color report. (See [View/Print/Email Completed Reports](#))

Use the **View** option to open the document as a PDF. Locate the File menu and choose **Print**, or (2) press the printer icon:

Locate the printer setting which allows you to change the color output, and choose to print in greyscale and/or black and white. This step may vary depending on your printer brand/style. One example is shown here:

Print your document.

Profile Cover Page

Regardless of when you generate/regenerate a report, the date displayed on the cover will always be the date the Respondent completed the assessment.

The Respondent name used in the report is the name entered by the Respondent when they completed the online profile. Use [Edit Existing Reports](#) to make changes to the Respondent-entered name.

Personalize the cover page with your company name, contact information and company logo at [View/Edit Account Information](#).

Do you want to change the product name to match your training program? Use [Report Tailoring](#) to personalize the cover even further.

Report Status and Report Summary

- The **Report Status** link indicates this report has not yet met completion requirements for viewing/printing; select the **Report Status** link to view report completion criteria.
- The **Report summary** link provides a snapshot of profile completion status for all individuals involved in an ED 363 for Leaders profile or a Five Behaviors Team.

Multi-Respondent Reports

-  ED 363 reports are considered complete in EPIC when the Leader and one (1) Rater have completed the assessment, and are able to be generated (and viewed) when the Leader and two (2) Raters in any category have completed the assessment. In cases where there is a Manager type of Rater assigned, the report can be generated when the Leader and one (1) Manager have completed the assessment. A **Report Status** link will indicate those in your search results which cannot yet be generated.
-  When you create a Five Behaviors team, EPIC creates an Access Code for each individual team member. EPIC also creates

an Annotated Team Report for use by the facilitator. This Annotated Team Report has its own Access Code, and is displayed in the same search results with the individual reports. This Annotated Team Report includes the same team information displayed in the reports of the individuals, but also includes valuable facilitation information in the margins of the report.

- Two criteria must be met before a  Five Behaviors individual or Annotated Team Report can be generated.
 1. A minimum of three (3) team member profiles must be completed AND
 2. A minimum of three (3) of the completed profiles must be set to **Include = Yes**.
- If a completed individual report cannot be generated, it will be included in search results but you will not be able to select it. Instead of the Select link, the **Report Status** link will be displayed.
- The  Five Behaviors Annotated Team Report is displayed in search results once the minimum criteria are met. The Annotated Team Report can be easily identified in the list of individual and team reports by the existence of the **Report summary** link. Use the **Report summary** link for each report to view the progress of the included Respondents.

Search Tips

- Organize your records into [folders](#) to easily locate them using the search function.
- Use partial information to locate records in the folder, subfolder, email address, and name fields. Example: Type **@Wiley.com** in the email field, and your search results will include records with email addresses ending in **@Wiley.com** .
- Search for an  ED 363 for Leaders report by Leader name (Raters are not returned separately).
- Search results for  Five Behaviors Products may include the Annotated Team Report and Annotated Progress Report along with the associated individual team member reports, depending on which EPIC function you are using.
- Batch Functions require the selection of a Product Family and Product, since these functions are designed to work with a large group of similar products.

Search Criteria

Sub Account: To view reports created by Sub Accounts in your hierarchy, first provide documentation of approval by involved account holders to EPIC [Technical Support](#).

Name: Enter text here and EPIC will return records with your text in all name fields including first name, last name, alternate

name, team name, ED 363 for Leaders Leader name, LPI: Next Generation Leader name, and group report name. Rater/Observer names cannot be found using the Search function.

Results Per Page: Increase this value to view multiple results on one page, but note that search results may take longer to display when a large quantity of records are returned.

Folder/Sub Folder: Select the folder/subfolder you created for your reports to easily locate and work with a group of related records.
